Please Read Before Proceeding

THE BATTERY IS NOT CHARGED WHEN YOU TAKE IT OUT OF THE BOX.
DO NOT REMOVE THE BATTERY PACK WHEN THE DEVICE IS CHARGING.
YOUR WARRANTY IS INVALIDATED IF YOU OPEN OR TAMPER WITH THE DEVICE’S OUTER CASING.

PRIVACY RESTRICTIONS
Some countries require full disclosure of recorded telephone conversations, and stipulate that you must inform the person with whom you are speaking that the conversation is being recorded. Always obey the relevant laws and regulations of your country when using the recording feature of your device.

Limitation of Damages

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL HTC OR ITS PROVIDERS BE LIABLE TO USER OR ANY THIRD PARTY FOR ANY INDIRECT, SPECIAL, CONSEQUENTIAL, INCIDENTAL OR PUNITIVE DAMAGES OF ANY KIND, IN CONTRACT OR TORT, INCLUDING, BUT NOT LIMITED TO, INJURY, LOSS OF REVENUE, LOSS OF GOODWILL, LOSS OF BUSINESS OPPORTUNITY, LOSS OF DATA, AND/OR LOSS OF PROFITS ARISING OUT OF, OR RELATED TO, IN ANY MANNER, OR THE DELIVERY, PERFORMANCE OR NONPERFORMANCE OF OBLIGATIONS, OR USE OF THE WEATHER INFORMATION, DATA OR DOCUMENTATION HEREUNDER REGARDLESS OF THE FORESEEABILITY THEREOF.

Important Health Information and Safety Precautions

When using this product, the safety precautions below must be taken to avoid possible legal liabilities and damages.

Retain and follow all product safety and operating instructions. Observe all warnings in the operating instructions on the product.

To reduce the risk of bodily injury, electric shock, fire, and damage to the equipment, observe the following precautions.

ELECTRICAL SAFETY

This product is intended for use when supplied with power from the designated battery or power supply unit. Other usage may be dangerous and will invalidate any approval given to this product.

SAFETY PRECAUTIONS FOR PROPER GROUNDING INSTALLATION

CAUTION: Connecting to an improperly grounded equipment can result in an electric shock to your device.

This product equipped with a USB Cable for connecting with desktop or notebook computer. Be sure your computer is properly grounded (earthed) before connecting this product to the computer. The power supply cord of a desktop or notebook computer has an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriate outlet which is properly installed and grounded in accordance with all local codes and ordinances.

SAFETY PRECAUTIONS FOR POWER SUPPLY UNIT

- **Use the correct external power source**
  
  A product should be operated only from the type of power source indicated on the electrical ratings label. If you are not sure of the type of power source required, consult your authorized service provider or local power company. For a product that operates from battery power or other sources, refer to the operating instructions that are included with the product.
  
  This product should be operated only with the following designated power supply unit(s).

  **AC Adapter**
  
  1. Phihong, Models PSAA05A-050, PSAA05C-050, PSAA05E-050, PSAA05K-050 and PSAA05S-050.
  2. HTC, Model TC P300

  **Car Adapter**
  
  Phihong, Model CLA05D-050
• **Handle battery packs carefully**
  This product contains a Li-ion polymer battery. There is a risk of fire and burns if the battery pack is handled improperly. Do not attempt to open or service the battery pack. Do not disassemble, crush, puncture, short external contacts or circuits, dispose of in fire or water, or expose a battery pack to temperatures higher than 60°C (140°F).

  **WARNING:** Danger of explosion if battery is incorrectly replaced. To reduce risk of fire or burns, do not disassemble, crush, puncture, short external contacts, expose to temperature above 60°C (140°F), or dispose of in fire or water. Replace only with specified batteries. Recycle or dispose of used batteries according to the local regulations or reference guide supplied with your product.

  ![Li-ion Battery Recycling Symbol]

  **Note** This product should be operated only with the following designated Battery Pack(s): HTC, Model SAPP160

• **Take extra precautions**
  • Keep the battery or device dry and away from water or any liquid as it may cause a short circuit.
  • Keep metal objects away so they don’t come in contact with the battery or its connectors as it may lead to short circuit during operation.
  • The phone should be only connected to products that bear the USB-IF logo or have completed the USB-IF compliance program.
  • Do not use a battery that appears damaged, deformed, or discolored, or the one that has any rust on its casing, overheats, or emits a foul odor.
  • Always keep the battery out of the reach of babies and small children, to avoid swallowing of the battery. Consult the doctor immediately if the battery is swallowed.
  • If the battery leaks:
    1. Do not allow the leaking fluid to come in contact with skin or clothing. If already in contact, flush the affected area immediately with clean water and seek medical advice.
    2. Do not allow the leaking fluid to come in contact with eyes. If already in contact, DO NOT rub; rinse with clean water immediately and seek medical advice.
    3. Take extra precautions to keep a leaking battery away from fire as there is a danger of ignition or explosion.

**SAFETY PRECAUTIONS FOR DIRECT SUNLIGHT**

Keep this product away from excessive moisture and extreme temperatures. Do not leave the product or its battery inside a vehicle or in places where the temperature may exceed 60°C (140°F), such as on a car dashboard, window sill, or behind a glass that is exposed to direct sunlight or strong ultraviolet light for extended periods of time. This may damage the product, overheat the battery, or pose a risk to the vehicle.
PREVENTION OF HEARING LOSS

CAUTION: Permanent hearing loss may occur if earphones or headphones are used at high volume for prolonged periods of time.

SAFETY IN AIRCRAFT

Due to the possible interference caused by this product to an aircraft’s navigation system and its communications network, using this device’s phone function on board an airplane is against the law in most countries. If you want to use this device when on board an aircraft, remember to turn off your phone by switching to Airplane Mode.

ENVIRONMENT RESTRICTIONS

Do not use this product in gas stations, fuel depots, chemical plants or where blasting operations are in progress, or in potentially explosive atmospheres such as fuelling areas, fuel storehouses, below deck on boats, chemical plants, fuel or chemical transfer or storage facilities, and areas where the air contains chemicals or particles, such as grain, dust, or metal powders. Please be aware that sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.

EXPLOSIVE ATMOSPHERES

When in any area with a potentially explosive atmosphere or where flammable materials exist, the product should be turned off and the user should obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death. Users are advised not to use the equipment at refueling points such as service or gas stations, and are reminded of the need to observe restrictions on the use of radio equipment in fuel depots, chemical plants, or where blasting operations are in progress. Areas with a potentially explosive atmosphere are often, but not always, clearly marked. These include fueling areas, below deck on boats, fuel or chemical transfer or storage facilities, and areas where the air contains chemicals or particles, such as grain, dust, or metal powders.

ROAD SAFETY

Vehicle drivers in motion are not permitted to use telephony services with handheld devices, except in the case of emergency. In some countries, using hands-free devices as an alternative is allowed.

SAFETY PRECAUTIONS FOR RF EXPOSURE

- Avoid using your phone near metal structures (for example, the steel frame of a building).
- Avoid using your phone near strong electromagnetic sources, such as microwave ovens, sound speakers, TV and radio.
- Use only original manufacturer-approved accessories, or accessories that do not contain any metal.
- Use of non-original manufacturer-approved accessories may violate your local RF exposure guidelines and should be avoided.
INTERFERENCE WITH MEDICAL EQUIPMENT FUNCTIONS
This product may cause medical equipment to malfunction. The use of this device is forbidden in most hospitals and medical clinics.

If you use any other personal medical device, consult the manufacturer of your device to determine if they are adequately shielded from external RF energy. Your physician may be able to assist you in obtaining this information.

Turn your phone OFF in health care facilities when any regulations posted in these areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.

HEARING AIDS
Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your service provider, or call the customer service line to discuss alternatives.

NONIONIZING RADIATION
Your device has an internal antenna. This product should be operated in its normal-use position to ensure the radiative performance and safety of the interference. As with other mobile radio transmitting equipment, users are advised that for satisfactory operation of the equipment and for the safety of personnel, it is recommended that no part of the human body be allowed to come too close to the antenna during operation of the equipment.

Use only the supplied integral antenna. Use of unauthorized or modified antennas may impair call quality and damage the phone, causing loss of performance and SAR levels exceeding the recommended limits as well as result in non-compliance with local regulatory requirements in your country.

General Precautions

• Avoid applying excessive pressure to the device
  Do not apply excessive pressure on the screen and the device to prevent damaging them and remove the device from your pants' pocket before sitting down. It is also recommended that you store the device in a protective case and only use your finger when interacting with the touch screen. Cracked display screens due to improper handling are not covered by the warranty.

• Device getting warm after prolonged use
  When using your device for prolonged periods of time, such as when you're talking on the phone, charging the battery or browsing the web, the device may become warm. In most cases, this condition is normal and therefore should not be interpreted as a problem with the device.

• Heed service markings
  Except as explained elsewhere in the Operating or Service documentation, do not service any product yourself. Service needed on components inside the device should be done by an authorized service technician or provider.

• Damage requiring service
  Unplug the product from the electrical outlet and refer servicing to an authorized service technician or provider under the following conditions:
  • Liquid has been spilled or an object has fallen onto the product.
  • The product has been exposed to rain or water.
  • The product has been dropped or damaged.
• There are noticeable signs of overheating.
• The product does not operate normally when you follow the operating instructions.
• **Avoid hot areas**
  The product should be placed away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
• **Avoid wet areas**
  Never use the product in a wet location.
• **Avoid using your device after a dramatic change in temperature**
  When you move your device between environments with very different temperature and/or humidity ranges, condensation may form on or within the device. To avoid damaging the device, allow sufficient time for the moisture to evaporate before using the device.
  **NOTICE:** When taking the device from low-temperature conditions into a warmer environment or from high-temperature conditions into a cooler environment, allow the device to acclimate to room temperature before turning on power.
• **Avoid pushing objects into product**
  Never push objects of any kind into cabinet slots or other openings in the product. Slots and openings are provided for ventilation. These openings must not be blocked or covered.
• **Mounting accessories**
  Do not use the product on an unstable table, cart, stand, tripod, or bracket. Any mounting of the product should follow the manufacturer’s instructions, and should use a mounting accessory recommended by the manufacturer.
• **Avoid unstable mounting**
  Do not place the product with an unstable base.
• **Use product with approved equipment**
  This product should be used only with personal computers and options identified as suitable for use with your equipment.
• **Adjust the volume**
  Turn down the volume before using headphones or other audio devices.
• **Cleaning**
  Unplug the product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning, but NEVER use water to clean the LCD screen.
• **Small Children**
  Do not leave your phone and its accessories within the reach of small children or allow them to play with it. They could hurt themselves or others, or could accidentally damage the phone. Your phone contains small parts with sharp edges that may cause an injury or which could become detached and create a choking hazard.
• **Repetitive Motion Injuries**
  To minimize the risk of RSI, when Texting or playing games with your phone:
  • Do not grip the phone too tightly
  • Press the buttons lightly
  • Make use of the special features in the handset which minimize the number of buttons which have to be pressed, such as message templates and predictive text.
  • Take lots of breaks to stretch and relax.
• **Bright Light**
  This phone is capable of producing flash of light or use as a torch, do not use it too close to the eyes.
• **Operating machinery**
  Full attention must be given to operating the machinery in order to reduce the risk of an accident.
• **Electrostatic discharge (ESD)**
  Do not touch the SIM card's metal connectors.

• **Seizures/Blackouts**
  This phone is capable of producing bright flashing lights.

• **Loud Noise**
  This phone is capable of producing loud noises which may damage your hearing.

• **Emergency Calls**
  This phone, like any wireless phone, operates using radio signals, which cannot guarantee connection in all conditions. Therefore, you must never rely solely on any wireless phone for emergency communications.

T-Mobile myTouch 3G User Guide 9 May 19, 2009
# T-Mobile myTouch 3G User Guide

## 6 Getting Around with Maps

- Add an email account
- Compose and send emails
- Manage emails on your external email account
- Edit or delete an external email account
- Add more email accounts

## 4.4 Using Google Talk™

- Sign in and chat online
- Manage your friends
- Mobile indicators
- Adjust instant messaging settings
- Sign out

## 5 Getting Connected

- Connecting to the Internet
  - GPRS/3G/EDGE
  - Wi-Fi
- Using Browser
  - View web pages
  - Manage links, history, and downloads
  - Manage bookmarks
  - Adjust Browser settings
- Amazon MP3
- Using Bluetooth
- Wi-Fi
- Adjust instant messaging settings
- Mobile indicators
- Manage your friends
- Sign out

## 7 Camera and Multimedia

- Capture modes
- Take pictures
- Shoot videos
- Set Gmail settings
- Add more email accounts
- Manage external email accounts
- Compose and send emails
- Manage emails on your external email accounts
- Edit or delete an external email accounts
- Add more email accounts

1 Phone Basics

1.1 Getting to Know Your T-Mobile myTouch 3G and Accessories

Front panel

For more information about the functions of the MENU, HOME, CALL, END CALL/POWER, SEARCH and BACK buttons, refer to “Phone Controls” on page 19 for more details. For more information about the TRACKBALL, refer to “Use the Trackball” on page 21.
Back and left panels

3.2 Megapixel Camera
See “Using Camera and Camcorder” on page 84 for details.

Bottom panel

Connect the:
• USB cable to transfer files.
• AC adapter to recharge the battery.
• USB stereo headset for hands-free conversation

Inside the box

The product package includes the following items and accessories:
• Battery
• USB cable
• AC adapter
• Wired stereo headset
• 3.5 headset adapter
• Pouch
• 4GB microSD™ card
• Screen protector
1.2 Installing the SIM Card, Battery, and Storage Card

Always turn off your phone before installing or replacing the SIM card, battery, and storage card. You also need to remove the back cover before you can install the SIM card and battery.

To remove the back cover
1. Make sure the phone is turned off.
2. Firmly hold the phone with both hands and the front panel facing down.
3. Push the back cover down with your thumb until it disengages from the phone.

SIM card
The SIM card contains your phone number, service details, and phone book/message memory. Your phone supports both 1.8V and 3V SIM cards.

Note Some legacy SIM cards may not function with your phone. You should consult your wireless service provider for a replacement SIM card. There may be fees for this service.

To install the SIM card
1. Make sure the phone is turned off.
2. Locate the SIM card slot, then insert the SIM card with its gold contacts facing down and its cut-off corner facing out the card slot.
3. Slide the SIM card completely into the slot.
To remove the SIM card

1. Remove the back cover and the battery if it is installed.
2. Locate the groove below the SIM card slot, then push the SIM card out of the slot with your finger.

Battery

Your phone comes with a rechargeable Lithium-ion battery and is designed to use only manufacturer-specified original batteries and accessories. Battery performance depends on many factors, including network configuration, signal strength, the temperature of the environment in which you operate your phone, the features and/or settings you select and use, items attached to connecting ports, and your voice, data, and other program usage patterns.

Battery life estimates (approximations):

Talk time:
- Up to 400 minutes for WCDMA
- Up to 450 minutes for GSM

Standby time:
- Up to 660 hours for WCDMA
- Up to 420 hours for GSM

Note: Battery life is subject to network and phone usage.

Warning! To reduce risk of fire or burns:
- Do not attempt to open, disassemble, or service the battery pack.
- Do not crush, puncture, short external contacts, or dispose of in fire or water.
- Do not expose to temperatures above 60°C (140°F).
- Replace only with the battery pack designated for this product.
- Recycle or dispose of used battery as stipulated by local regulations.

To install the battery

1. Align the battery’s exposed copper contacts with the battery connectors inside the battery compartment.
2. Insert the contact side of the battery first then gently push the battery into place.
3. Replace the back cover.
To remove the battery

1. Make sure the phone is turned off.
2. Remove the back cover.
3. The top side of the battery has a protruding grip. Lift the battery from the grip to remove it.

Storage card

To store your pictures, music, and applications, install the supplied microSD card into your phone.

Note You need to install the microSD card before you can use the Camera application.

To install the storage card

Insert the microSD card into the slot with its gold contacts facing down.

To remove the storage card

Press the storage card to eject it from the slot.

Note If you want to remove the storage card while the phone is on, see “To safely remove the storage card while the phone is on” on page 33.
1.3 Charging the Battery

New batteries are not charged when shipped. Before you start using your phone, you need to install and charge the battery. Some batteries perform best after several full charge/discharge cycles.

**To charge the battery**
1. Plug the USB connector of the AC adapter to the USB connector at the bottom of your phone.
2. Plug in the AC adapter to an electrical outlet to start charging the battery.

**Note** Only the AC adapter and USB cable provided with your phone must be used to charge the battery.

Charging is indicated by a solid red light in the Notification LED. As the battery is being charged while the phone is on, the charging battery icon 📦 is displayed in the status bar of the Home screen. After the battery has been fully charged, the Notification LED shows a solid green light and a full battery icon 🃁 displays in the status bar of the Home screen.

For more information about the Notification LED, refer to “Phone Status and Notifications” on page 26.

**Warning:**
- Do not remove the battery from the phone while you are charging it using the AC or car adapter.
- As a safety precaution, the battery stops charging when it overheats.

1.4 Phone Controls

Press the control buttons on the front panel of your phone to do the following:
Search button

Press SEARCH to search information on the current screen or application. For example, while in the Contacts tab, press SEARCH to search contact-related information such as names, phone numbers, or e-mail addresses in your contacts list.

Press SEARCH while in the Google Maps™ mapping service to search for places of interest. Press SEARCH while in the Home screen or Browser to launch Google™ search and search information on the web.

In any search bar, enter the information you want to search, then press SEARCH again, or touch . You can also use your voice to do a search.

To search by voice

1 Touch .
2 When you see Speak now on the screen, say your search item using a clear voice.
1.5 Getting Around Your Phone

There are different ways to navigate around the Home screen, menus and application screens on your phone. You can also change the screen orientation of the phone.

**Touch**
When you want to type using the onscreen keyboard, select items onscreen such as application and settings icons, or press onscreen buttons, simply touch them with your finger.

**Touch and hold**
To open the available options for an item (for example, contact or link in a webpage), simply touch and hold the item.

**Swipe or slide**
To swipe or slide means to quickly drag your finger vertically or horizontally across the screen.

**Drag**
Touch and hold your finger with some pressure before you start to drag. While dragging, do not release your finger until you have reached the target position.

**Flick**
Flicking the screen is similar to swiping, except that you need to swipe your finger in light, quicker strokes. This finger gesture is always in a vertical direction, such as when flicking the contacts or message list.

**Rotate**
For most screens, you can automatically change the screen orientation from portrait to landscape by turning the phone sideways. When entering text, you can turn the phone sideways to bring up a bigger keyboard. Refer to “Using the landscape onscreen keyboard” on page 32 for more details.

**Note** The Orientation check box in HOME > MENU > Settings > Sound & display needs to be selected for the screen orientation to automatically change.

**Use the Trackball**
Roll or press the TRACKBALL to select or highlight items on the screen. The TRACKBALL also flashes when you receive an incoming call or a notification.
1.6 Getting Started

Once you've installed your SIM card, battery, and microSD card, you can turn on your phone and start using it.

Turn your phone on and off

To turn on the phone

Press the END CALL/POWER button.

**Note** When you turn on the phone for the first time, you will be prompted to sign in to your Google™ Account. For more information, refer to “Set up your phone for the first time” on page 22.

To turn off the phone

1. Press and hold the END CALL/POWER button until the options menu opens.
2. On the options menu, touch Power off.
3. Touch OK when prompted to turn off the phone.

Enter PIN

If your SIM card is preset with a PIN (personal identification number), you will be prompted to enter the PIN before you can use the phone. Enter the SIM PIN, then touch OK. To learn how to enable or disable the SIM PIN, refer to “Protect your SIM card with a PIN” on page 101.

**Important** If you entered the wrong PIN three times, the SIM card will be blocked and you will not be able to use your phone. If this happens, you can unblock it with the PUK (PIN Unblocking Key) obtained from your wireless service provider. Refer to “To restore a SIM card that has been locked out” on page 101 to learn how to unblock the SIM card.

Set up your phone for the first time

When you turn on the phone for the first time and after touching the Android™ image, you will be prompted to sign in to your Google Account. If you decide not to sign in to your Google Account, you can still use the phone but you won’t be able to use Google services such as Google Talk™, Gmail™, and Android Market™.

**Important** You will need to know your Google password to sign in. If you have forgotten your password, refer to “Retrieve your Google password” on page 23 to learn how to retrieve your password.

**Note** Make sure that your phone has an active data connection (3G/GPRS) before you sign in to your Google Account. Refer to “Phone Status and Notifications” on page 26 to know if your phone has an active data connection.

1. Touch Skip.

**Tip** Touch Begin to view a tutorial on how to use the onscreen keyboard.

2. Touch Sign in. Enter your user name and password, then touch Sign in. After signing in, all emails, contacts, and calendar events on your Google Account will automatically synchronize with your phone.

   **Note** Touch Create if you do not have a Google Account yet. You need a Google Account to use Google services.

3. Set up the date and time and then touch Next.

4. Touch Finish setup.
Retrieve your Google password
1. On your computer, open your browser and go to http://google.com/accounts.
2. On the right side of the page, click **I cannot access my account**.
3. In the **Please select your issue** section, select **I forgot my password**.
4. Click **Reset your password now**, and then follow the procedure for recovering your password.

Turn off the screen when not in use
To save battery power, the phone automatically turns off the screen when you leave it idle after a certain period of time. You will still be able to receive messages and calls while the phone’s screen is off.

**Tip** For information on how to adjust the time before the screen turns off, refer to “To adjust the time before the screen turns off” on page 99.

You can also turn off the screen by pressing the **END CALL/POWER** button. Pressing any of the control buttons again or incoming calls will turn on your phone screen.

**Note** If you have set up a screen unlock pattern, you will be prompted to draw the pattern on the screen before it unlocks. For more information on how to create and enable the screen unlock pattern, refer to “Protect your phone with a screen lock” on page 101.

### 1.7 Home Screen

The Home screen is your starting point for using the applications on your phone. You can customize the Home screen to display application icons, shortcuts, folders, and widgets.

**Tip** While in any application, press **HOME** to go back to the Home screen.
Extended Home screen

The Home screen extends beyond the screen width to provide more space for adding icons, widgets, and more. Press HOME, then slide your finger horizontally across the screen to go to the left or right side of the extended Home screen.

Tip While on an extended Home screen, you can also press HOME to return to the main Home screen.

Customizing the Home screen

To add a Home screen item

1. Press HOME, then touch and hold an empty area on the screen.
2. When the Add to Home options menu opens, select the item you want to add to the Home screen:
   - **Shortcuts.** Add shortcuts such as applications, a bookmarked web page, a favorite contact, a Gmail label, or a music playlist.
     Tip To quickly add an application shortcut that is on the Applications tab to the Home screen, touch and hold an application icon. When the phone vibrates, release the icon on an empty area on the Home screen.
   - **Widgets.** Add a clock, music player, a picture frame, the Google Search bar, or a calendar that shows upcoming appointments.
     Note If you installed applications from Android Market that have widgets, those widgets will also appear here.
   - **Folders.** Add a folder where you can organize Home screen items, a shortcut to all your contacts, contacts with phone numbers, or starred contacts. Add a shortcut to all your contacts, contacts with phone numbers, or starred contacts. Contact details are automatically updated when there are changes in the source.
     For more information on how to create folders, refer to “To create a folder and add items to it” on page 25.
   - **Wallpapers.** Change the Home screen wallpaper. For more information about customizing the wallpaper, refer to “To change the Home screen wallpaper” on page 25.
To reposition a Home screen item
1 Touch and hold the item on the screen you want to reposition to activate Move mode.
Note When Move mode is activated, the item magnifies and the phone vibrates.
2 Without lifting your finger, drag the icon to the desired position on the screen, then release it.
Note To move an item from the Home screen to an extended Home screen, touch and hold the item and then drag it to the left or right edge of the screen until the display shifts to the extended Home screen. Position the item on the screen, then release it.

To remove a Home screen item
1 Touch and hold the item on the screen you want to remove to activate Move mode.
Note When Move mode is activated, the item magnifies and the phone vibrates.
2 Drag the icon to the Applications tab (The Applications tab changes into 🗑️)
3 When the icon and Application tab turn red, release it.

To change the Home screen wallpaper
1 While on the Home screen, press MENU and then touch Wallpaper.
2 Touch Pictures or Wallpaper gallery.
   • Touch Pictures to use a picture that you have captured using the camera or copied to your phone as a wallpaper. You can crop the picture before setting it as a wallpaper. Refer to “To crop a picture” on page 88 to learn how to crop the picture.
   • Touch Wallpaper gallery to use preset wallpapers that came with the phone.
3 Touch Save or Set wallpaper.

To create a folder and add items to it
You can create folders on the Home screen to hold application icons or shortcuts.
1 Press HOME, press MENU, and then touch Add > Folder. A new folder appears on the screen.
2 Touch and hold an application icon or a shortcut on the Home screen to activate Move mode, then drag it on top of the folder.

To access the items inside a folder, touch the folder to open it and then touch the icon of the application or shortcut you want to open.
Tip To delete a folder, follow the same procedure when you want to remove a Home screen item. Refer to “To remove a Home screen item” on page 25 for details.

To rename a folder
1 Touch the folder to open it.
2 Touch and hold the folder’s title bar to open the Rename folder dialog box.
3 Enter the Folder name and then touch OK.
1.8 Phone Status and Notifications

Status bar
On top of the phone screen is the status bar. The left side of the status bar displays notification icons while the right side of the status bar displays the phone status.

Tip When the status bar is full, touch \ to display hidden icons/notifications.

Notification icons
These are the icons that may appear on the notifications area of the status bar:

<table>
<thead>
<tr>
<th>Icons that appear in the boxed area</th>
</tr>
</thead>
<tbody>
<tr>
<td>📧 New email message</td>
</tr>
<tr>
<td>📩 New SMS/MMS</td>
</tr>
<tr>
<td>📮 Problem with SMS/MMS delivery</td>
</tr>
<tr>
<td>📥 New instant message</td>
</tr>
<tr>
<td>📧 New voicemail</td>
</tr>
<tr>
<td>⌚ Upcoming event</td>
</tr>
<tr>
<td>🎵 Song is playing</td>
</tr>
<tr>
<td>⚠️ Problem with sign-in/sync</td>
</tr>
<tr>
<td>📡 Storage card is full</td>
</tr>
<tr>
<td>📱 Wi-Fi is on and wireless networks are available</td>
</tr>
<tr>
<td>📱 Phone connected to computer via USB cable</td>
</tr>
</tbody>
</table>

More (not displayed) notifications
Call in progress
Missed call
Call on hold
Call forwarding on
Compass needs orientation
Uploading data
Downloading data
Content downloaded
Uploading picture to Picasa
Upload to Picasa finished

Status icons
These are the icons that may appear on the status area of the status bar:

<table>
<thead>
<tr>
<th>Icons that appear in the boxed area</th>
</tr>
</thead>
<tbody>
<tr>
<td>🌐 GPRS connected</td>
</tr>
<tr>
<td>🌐 GPRS in use</td>
</tr>
</tbody>
</table>

Roaming
No signal
Notifications panel

Notification icons report the arrival of new messages, calendar events, alarms set and ongoing settings such as when call forwarding is on or the current call status. You can open the Notifications panel to open the message, reminder, or event notification and see the wireless service provider name.

To open the Notifications panel

When a new notification icon displays in the status bar, touch and hold the status bar, then slide your finger downward to open the Notifications panel.

If you have several notifications, you can scroll down the screen to view more notifications.
Tip You can also open the Notifications panel on the Home screen by pressing MENU and then touching Notifications.

To close the Notifications Panel
Touch and hold the bottom bar of the Notifications panel, then slide your finger up the screen or press BACK.

Notification LED
The Notification LED located at the right corner of the earpiece provides information on the phone status or pending notifications.

<table>
<thead>
<tr>
<th>LED Status</th>
<th>Indication</th>
</tr>
</thead>
<tbody>
<tr>
<td>Solid green</td>
<td>Battery is fully charged (When the phone is being charged using the AC adapter or connected to the computer).</td>
</tr>
<tr>
<td>Solid red</td>
<td>Battery is charging</td>
</tr>
<tr>
<td>Flashing red</td>
<td>Battery is low</td>
</tr>
<tr>
<td>Flashing green</td>
<td>You have a pending notification</td>
</tr>
</tbody>
</table>

Note The indicators are listed in order of priority. For example, if your phone is connected to a power adapter and is charging the battery, the LED will be solid red and will not switch to a flashing green light even if there is a pending notification.

1.9 Applications
The Applications tab holds all applications on your phone. All applications that you downloaded and installed from Android Market or from the web are also added to the Applications tab.

To open the Applications tab
Press HOME, then touch Applications icon. You can also touch the Application tab and then drag it up to open it.

Tip To open applications quickly, you can add the icons of frequently-used applications to the Home screen or to folders which you have created. For details, refer to “Customizing the Home screen” on page 24.
To close the Applications tab

Touch .

**Recently-used applications**

To open a recently-used application

1. Press and hold the HOME button to open the recently-used applications window. The window displays the last six applications you have used.
2. Touch an icon in the window to open the related application.

**1.10 Settings**

Control and customize phone settings on the Settings screen.

To open the Settings screen, do one of the following:

- Press HOME, then press MENU, and then touch Settings.
- Press HOME, then open the Applications tab, and then touch Settings.

<table>
<thead>
<tr>
<th>Wireless controls</th>

</tbody>
</table>
1.11 Adjusting the Volume

Adjusting the Ringer volume changes the volume level of the phone ring tone, whereas adjusting the Media volume changes the volume level of sound notifications and music or video playback. The ringer volume and media volume can be separately adjusted.

To adjust the Ringer volume
You can adjust the Ringer volume when you are on the Home screen or any application screens (except during a call or when playing music/video).

1. Press the VOLUME UP or VOLUME DOWN buttons on the left panel of the phone to adjust the ringer volume to your desired level. The Ringer volume window appears on the screen to display the volume levels.

2. While in the lowest ringer volume level, press VOLUME DOWN once to set your phone to Vibrate mode. The phone vibrates and the vibrate mode icon 🎥 appears in the status bar.

3. While in Vibrate mode, press VOLUME UP once to switch to silent mode. The speaker mute icon 🔊 displays in the status bar.

Tip To quickly switch your phone to silent mode, press and hold the END CALL/POWER button, then touch Silent mode on the options menu.

You can also adjust the ringer volume on the Settings screen. To adjust, press HOME, then press MENU, and then touch Settings > Sound & display > Ringer volume.

To adjust the media volume
When playing music or watching video, press the VOLUME UP or VOLUME DOWN buttons on the left panel of the phone to adjust the media volume. The Music/video volume window appears on the screen to display the volume level.

You can also adjust the media volume on the Settings screen.

1. Press HOME, then press MENU, and then touch Settings.

2. Touch Sound & display > Media volume.

3. When the Media volume window appears, move the slider to the left (to lower the volume) or to the right (to increase the volume).

4. Touch OK to close the window.
1.12 Using the Onscreen Keyboard

When you start a program or select a field that requires text or numbers, the onscreen keyboard becomes available.

Tips

- When you do not need the keyboard, you can close it by pressing BACK. To show the keyboard again, touch a text box onscreen or when a text field is selected, press the TRACKBALL.
- If you need to insert or delete a character, use the TRACKBALL to position the cursor next to the character you want to edit.

Note The available keys on the keyboard will be different depending on the current text field selected. For example, in Browser, when you are in the URL field, some keys at the bottom row are replaced with alternate keys (for example, .com key) to make it faster for you to type web addresses.

Adjusting keyboard settings

Set onscreen keyboard options such as vibrate and/or emit a sound when you touch a key, auto-capitalization, auto-complete, and more.

To set onscreen keyboard options

1. Press HOME, then press MENU, and then touch Settings > Locale & text > Android keyboard.
2. Set the options you want to use for the onscreen keyboard.

Tip If you select the Quick fixes, Show suggestions, and Auto-complete options, the phone offers you smart word suggestions as you type, so you can enter text more quickly and accurately on the onscreen keyboard.
Using the landscape onscreen keyboard

When entering text, you can choose to use the landscape orientation of the onscreen keyboard, by turning the phone sideways, to use a larger keyboard that lets you type easily using two thumbs.

**Note** The Orientation check box in HOME > MENU > Settings > Sound & display needs to be selected for the screen orientation to automatically change.

Entering numbers and symbols

Switch to the numeric and symbol onscreen keyboard to let you enter numbers and common symbols such as parentheses, braces, currency signs, punctuation marks, special characters, and more.

Touch to show more symbols.

Touch to switch back to the alphabet keyboard.
1.13 Using the Phone’s Storage Card as a USB Drive

To transfer music, pictures, and other files from your computer to your phone’s storage card, you need to set the phone’s storage card as a USB drive.

**To set the phone’s storage card as a USB drive**

1. Connect the phone to the computer using the USB cable. A notification icon appears in the status bar.
2. Open the Notifications Panel. Refer to “To open the Notifications panel” on page 27 to learn how to open the Notifications Panel.
3. In the Notifications Panel, touch USB connected and then touch Mount.

When you select Mount, the phone will not recognize the storage card when it is connected to a computer. You will not be able to use some of the phone’s applications such as Camera. You need to turn off USB storage for the phone to recognize the storage card when the phone is connected to a computer. Refer to the next procedure to learn how to turn off USB storage.

**To turn off USB storage**

1. Open the Notifications Panel. Refer to “To open the Notifications panel” on page 27 to learn how to open the Notifications Panel.
2. In the Notifications Panel, touch Turn off USB storage and then touch Turn Off.

**To safely remove the storage card while the phone is on**

When you need to remove the storage card while the phone is on, you must unmount the storage card first to prevent corrupting or damaging the storage card.

1. Press HOME, then press MENU, and then touch Settings.
2. Scroll down the screen, then touch SD card & phone storage.
3. Touch Unmount SD card.

Remove the storage card by following the instructions in “To remove the storage card” on page 18.

**To format the SD card**

1. Press HOME, then press MENU, and then touch Settings.
2. Scroll down the screen, then touch SD card & phone storage.
3. Touch Unmount SD card. This enables the Format SD card option.
4. Touch Format SD card > Format SD card.
2 Using Phone Features and Managing Contacts

2.1 Making Calls

Use the Dialer to enter and call a phone number or you can use Voice Dialer to make a call.

To open the Dialer

Do one of the following:

• On the Home screen, touch Dialer.
• On the Home screen, touch the Applications tab, then touch Dialer.
• While on any application screen, press the CALL button, then touch the Dialer tab.

To make a call on the Dialer

1 Touch the keys on the dialer to enter the phone number. If you touch a wrong number, touch \( \text{textbackspace} \) to erase digits one by one. To erase the entire number, touch and hold \( \text{textbackspace} \).
2 Press the CALL button to place the call.

Tip During a call, press the VOLUME UP/DOWN buttons on the left panel of the phone to adjust the in-call volume.

To make a call using Voice Dialer

1 Press HOME, then touch the Applications tab, and then touch Voice Dialer.
2 When the Voice Dialer message box appears and you see “Listening” on the screen, say “Call [name of person]” in a clear voice into the phone.
3 A confirmation message will pop up asking if the person to call is correct. Touch OK if the person is correct or touch Cancel to try again.
To make an emergency call

On the Dialer tab, enter the emergency number for your locale (for example, 000), and then press the CALL button on your phone.

Notes

• When the screen is locked, you need to unlock it first before you can make an emergency call. If your phone is in sleep mode, press any button to wake up the phone and then press the MENU button to unlock the screen.
• Additional emergency numbers may be included in your SIM card. Contact your wireless service provider for details.

To make an international call

1 Touch and hold the number 0 key on the Dialer tab until the plus (+) sign appears. The plus (+) sign replaces the international prefix of the country that you are calling.
2 Enter the full phone number that you want to dial, and press the CALL button. The full phone number includes the country code, area code (without the leading zero, if any), and phone number.

Make a call from the Call log

While on any application screen, press the CALL button to directly access the Call log tab. You can then touch a missed call, dialed number, or received call that you want to call back.

For more information about the Call log tab, refer to “Using the Call Log” on page 39.

Add and call your contacts

Add the phone numbers of your contacts so you can call them more easily.

1 While on any application screen, press the CALL button, and then touch the Contacts tab.
2 “Creating and Managing Your Contacts” on page 41 describes how to add contacts to this tab.
3 Do one of the following:
   • Touch a contact to access the contact details. Then touch the number you want to call.
   • Touch and hold the contact you want to call and then from the options menu, touch Call Mobile, Call Work, or Call Home.

Add and call favorite contacts

To quickly find and call contacts who you most frequently communicate with, you can add them in the Favorites tab.

1 While on any application screen, press the CALL button, and then touch the Favorites tab.
2 You need to have at least one favorite contact to make a call from this tab. See “Add and call favorite contacts” on page 35 for the instructions.
3 Do one of the following:
   • Touch a favorite contact to access the contact details. Navigate to the Dial number section, then touch a phone number that you want to call.
   • Touch and hold the favorite contact you want to call and then from the options menu, touch Call Mobile, Call Work, or Call Home to make the call.
Call voicemail

The voicemail icon appears in the status bar when you have a new voicemail.

To call voicemail

1. Touch and hold the status bar, then slide your finger downward on the screen to open the Notifications panel.
2. Touch New voicemail to listen to your voicemail.

To use the Dialer to call voicemail

1. Press the CALL button, then touch the Dialer tab.
2. Touch and hold the number 1 key.

Note If you have not set up your voicemail number, a missing voicemail number error message appears on the screen when you touch and hold the number 1 key. For more information on how to set up your voicemail number, refer to “Adjusting Phone Settings” on page 40.

2.2 Answering or Rejecting Calls

When you receive a phone call from someone in Contacts, the Incoming call screen appears and displays the caller’s caller ID icon, name, and phone number. When you receive a call from someone who is not stored in Contacts, only the default caller ID icon and phone number appear.

To answer a call

Press the CALL button.

To reject a call

Press the END CALL/POWER button to reject a call and redirect the caller to your voicemail.
2.3  Call Options

When a call is in progress, press **MENU** to open the call options. Touch a button to put a call on hold, dial another contact for a phone conference, mute the phone microphone, and more.

Note When the phone is dialing, only the End call and Speaker buttons are enabled.

To hold the call
Press **MENU**, then touch **Hold** to hold the call. Touch this button again to resume the call. When you place a call on hold, the Hold call icon ☎️ appears in the status bar and the words “On hold” appear above the caller’s picture.

To mute the microphone during a call
Press **MENU**, then touch **Mute** to turn the microphone on or off. When the microphone is turned off, the Mute button indicator lights up green and the mute icon 🎤 appears in the status bar.

Note If you are using the provided wired headset in a call, you can press the button on the wired headset to mute the microphone. Press the button again to unmute the microphone.

To turn the speakerphone on or off
During a call, press **MENU**, then touch **Speaker** to turn the speakerphone on or off. The Speaker button indicator lights up green and the speakerphone icon 🎤 appears in the status bar when the speakerphone is on.

Warning! To avoid damage to your hearing, do not hold your phone against your ear when the speakerphone is turned on.

To transfer the call to a Bluetooth headset
When a Bluetooth headset is paired and connected to your phone, you can receive all incoming calls on the Bluetooth headset for hands-free conversation.

Tip Press **MENU**, then touch **Bluetooth** to toggle between the phone speaker and the paired Bluetooth phone.

Note For more information on how to connect a Bluetooth headset or a Bluetooth car kit to your phone, refer to “Using Bluetooth” on page 73.
When the Bluetooth headset is disconnected from your phone, do the following to reconnect it and transfer the current call:

1. Make sure that Bluetooth on your phone and the Bluetooth headset are on. Refer to “Using Bluetooth” on page 73 for details.
2. During a call, press HOME > MENU, then touch Settings.
4. In the Bluetooth devices section, touch and hold the name of the Bluetooth headset that you have previously paired and connected to your phone, then touch Connect on the options menu. When connected, the Bluetooth connected icon appears in the status bar. The call is automatically transferred to the Bluetooth headset.
5. Press the TALK button to display the current call screen.
6. To transfer the call back to your phone, on the ongoing call screen, press MENU, then touch Bluetooth.

To end a call
When a call is in progress, you can do one of the following to hang up:

- Press the END CALL/POWER button.
- Press MENU, then touch End call.
- If you are using the provided wired headset, press and hold the button to end the call.

Manage multiple calls
Your phone notifies you when you have another incoming call, and gives you the option of rejecting or accepting the call. If you are already on a call and accept the new call, you can choose to swap between the two callers.

- Press the CALL button to take the second call, and put the first call on hold. You can also press MENU and then touch Hold call in progress & answer.
- To end the second call and return to the first call, press the END CALL/POWER button on your phone.
- To end the first call and take the incoming call, press MENU, then touch End call in progress & answer.
- To swap between two calls, press MENU and then touch Swap calls.

Set up a conference call
You can set up a conference call with as many as six participants, including yourself.

Note: Not all mobile phone networks support conference calling. Contact your wireless service provider for details.

1. Make a call to the first conference call participant. See “Making Calls” on page 34 for details.
2. When connected to the first participant, press MENU and then touch Add call.
3. Enter the phone number of the person you want to add to the conference call and press the CALL button. Or touch the Call log, Contacts, or Favorites tab and then select the next conference call participant from the list. The first call is automatically put on hold.
4. When connected to the second conference call participant, press MENU, then touch Merge calls to begin the conference call.
5. To add more conference call participants, repeat steps 2 and 3.
6 During a conference call, press **MENU** and touch **Manage conference** to drop a conference call participant or to talk privately to one of the participants.

7 To end the conference call and disconnect all callers, press the **END CALL/POWER** button.

### 2.4 Using the Call Log

The **Call log** tab lists all missed calls ✅, dialed numbers 📞, and received calls 📲.

**To use the Call log tab**

1. While on any screen, press the **CALL** button, then touch the **Call log** tab.
2. Do one of the following:
   - Touch a name or number in the list to open a screen that gives you options on what you can do with the contact.
   - Touch and hold a name or number in the list to display the options menu where you can call the contact, view the contact information (if the number is stored in your contacts list), edit the number before you redial, and more.
To add a new phone number to Contacts
If the phone number of a person who called is not in your contacts list, you can choose to save the number after you hang up.

1. While on any screen, press the CALL button, then touch the Call log tab.
2. Touch and hold the received call that you want to save to your contacts list. Then touch Add to contacts.
3. When the Contacts screen appears, touch Create new contact. The received call number is automatically added to the Mobile phone field in the Phone numbers section.
4. Enter other information for the contact, if desired.
5. Scroll down the screen, then touch Done.

Note For more information about creating contacts, refer to “Add a new contact” on page 42.

To check a missed call
You will see the missed call icon 📞 in the status bar when you missed a call. To check who the caller was, press the CALL button, then touch the Call log tab.

Tip You can also touch and hold the status bar, then slide your finger downward on the screen to open the Notifications panel. The missed call number and/or contact name is displayed.

To clear the Call log
Do one of the following when viewing the Call log:

- To remove a name or number, touch and hold on the name or number, then touch Remove from call log.
- To clear the entire Call log, press MENU then touch Clear call log.

2.5 Adjusting Phone Settings

You can adjust the phone settings of your phone such as your voicemail number, or enable additional call services from your wireless service provider.

To open the Call settings screen, press HOME > MENU, then touch Settings > Call settings.

<table>
<thead>
<tr>
<th>Options</th>
<th>Description</th>

</table>
2.6 Turning the Phone Function On and Off

In many countries, you are required by law to turn off the phone while on board an aircraft. A way to turn off the phone function is to switch your phone to **Airplane mode**. In Airplane mode, all wireless radios on your phone are turned off, including the phone function, Bluetooth, and Wi-Fi.

**To enable or disable Airplane mode**

1. Press **HOME**, then press **MENU**, and then touch **Settings > Wireless controls**.
2. Touch **Airplane mode** to enable or disable it. When enabled, the Airplane mode icon  is displayed in the status bar.

**Tip** When you disable Airplane Mode, the phone function is turned back on and the previous state of Bluetooth and Wi-Fi is restored.

2.7 Creating and Managing Your Contacts

Similar to an online address book, the Contacts application gives you quick and easy access to the people you want to reach. You can view and create contacts on your phone and sync these with your Gmail contacts on the web. You can also import contacts stored on your SIM card.

**To view your Contacts list**

Do one of the following to display your contacts list:

- Press **HOME**, then touch **Contacts**.
- Press the **CALL** button, then touch the **Contacts** tab.

**Tip** When you reply to or forward an email message to an email address that is not in Contacts, the email address is automatically added to your contacts list.
Add a new contact

To add a new contact
1  In the contacts list, press MENU, then touch New contact.
2  Enter the contact’s name and other contact information such as their mobile phone number, home phone number, or email address. Slide your finger up or down to see more labels.

Note To change a default information label, for example Home email to Work email, touch the information label button, then select another label on the menu. You can also touch Custom on the menu to create another information label that is not in the list.

3  When finished, press MENU and then touch Done.

To import contacts from the SIM card
You can add contacts saved on your SIM card to your phone’s contacts list.
1  In the contacts list, press MENU, then touch Import contacts.
2  Do one of the following:
   • To import a single contact, touch the contact you want to import.
   • To import all contacts, press MENU, then touch Import all.

Add favorite contacts
Use the Favorites tab as a way to filter your contacts list.
1  In the contacts list, press and hold a contact to open the options menu.
2  Touch Add to favorites.

The contact will be added to the contacts list on the Favorites tab. A colored star will also appear with the contact name in the contact details screen.
To view favorite contacts
Press CALL and then touch the Favorites tab. You can also see your frequently called contacts or numbers on the Favorites tab.

To remove a contact from the Favorites tab
On the Favorites tab, touch and hold the contact you want to remove and then touch Remove from favorites on the options menu.

Edit and customize your contacts
To edit contact information
You can always make changes to the information you have stored for a contact.
1 In the contacts list, touch and hold the contact whose information you want to edit, then touch Edit contact.
2 Edit the contact information, then touch Save. To ignore all changes you made, touch Discard changes.

To change the contact’s default phone number
The default phone number of a contact appears below the contact’s name in the contacts list. The default phone number is used when you initiate a call or send a text message from the contacts list (by touching and holding a contact). You can change the contact’s default phone number.
1 In the contacts list, touch the contact to open the contact details screen.
2 Touch and hold the phone number you want to use as the contact’s default phone number, then touch Make default number. The default phone number moves on top of the list and ☑ appears after the phone number.
3 Press BACK when you are done.

Communicate with your contacts
From the contacts list you can quickly call or send a text or multimedia message to a contact’s default phone number.
However, to view all the information you have stored for a contact, and to initiate other types of communication with that contact, open the contact details screen.
To open the contact’s details screen, touch the contact name in the contacts list.

To call a contact
Do one of the following:
• In the contacts list, use the TRACKBALL to navigate to the contact you want to call, then press the CALL button. The contact’s default phone number is dialed.
• To dial a different number for the contact, touch the contact’s name in the contacts list to open the contact details screen, then touch a phone number.
To send a text or multimedia message to a contact

The contact must have a mobile phone number in their contact details for you to send them a text or multimedia message.

Do one of the following:

- When the contact’s default number is a mobile phone number, touch and hold the contact’s name in the list, then touch **Send SMS/MMS** on the options menu.
- Touch the contact in the list to open the contact details screen, then touch **Text mobile, Text work,** or another text option.

A compose screen opens for your message.

**Note** For more information about composing and sending text and multimedia messages, refer to “Exchanging Messages” on page 51.

To send an email to a contact

The contact must have an email address in their contact details for you to send them an email.

1. In the contacts list, touch the contact you want to send the email to.
2. When the contact details screen opens, touch **Email home, Email work,** or another email option.
   A compose screen opens for your new email.
   **Note** If you have more than one email account set up on your phone, you will be prompted to select which account to use to send the message.

**Note** For more information about composing and sending email messages, refer to “Exchanging Messages” on page 51.

### 2.8 T-Mobile myFaves®

T-Mobile myFaves helps you stay connected to the people who matter most in your life. Simply choose any five U.S. phone numbers you call most often, on any network.

For more information about the benefits of using T-Mobile myFaves and how to subscribe to this service, visit http://www.t-mobile.com.

**T-mobile myFaves icon on the Home screen**

Once you activate your subscription to T-Mobile myFaves service, the **myFaves** icon will show on your phone’s Home screen. Access myFaves by touching the **myFaves** icon. You can then add and call contacts by simply touching the circles you see. You can also associate your contacts with preset icons or their actual photos.

Press **MENU** to let you edit, replace, or change the order of the myFaves contacts.
Add myFaves contacts
To add myFaves contacts, you can create new contacts or add existing contacts from your phone.

1 Press HOME and then touch myFaves on the Home screen.
2 Touch an empty circle on the myFaves screen.
3 Choose whether to create a new contact or use an existing contact.
   Notes
   • If you choose Create new, you need to fill in the name and number.
   • If you choose From Contacts, just select a contact from your Contacts list. The name and number will be automatically entered.
4 Touch Change icon to associate the contact with an image. You can choose to take a picture or use an existing image or icon on your phone.
5 Touch Add contact when you are done.
Note You can only enter the name and phone number for a contact when you create a new contact in myFaves. If you want to be able to email the myFaves contact, you need to import an existing contact that has an email address.

Communicating with a myFaves contact
You have different ways to communicate with a myFaves contact.
1 On the myFaves panel, select the myFaves contact you want to communicate with.
2 On the screen, select how you want to communicate with the contact.
You can do the following:
   • Call
   • Send email (Uses Gmail to send the email)
   • Send message
   • Send IM (Uses Google Talk to chat)
Touch Activity log to view the information for the selected contact.

Edit myFaves contact
1 Press HOME and then touch myFaves on the Home screen.
2 Select the myFaves contact, by positioning the contact’s circle in the center of the screen, you want to edit.
3 Press MENU and then touch Edit contact.
4 Edit the contact details and contact icon and then touch Save contact.

Change the order of myFaves contacts
1 Press HOME and then touch myFaves on the Home screen.
2 Press MENU and then touch Change order.
3 Scroll the TRACKBALL to the left or right to move the contact’s circle.
4 After re-ordering, press MENU and then touch Change order.
Replace a myFaves contact
1 Press HOME and then touch myFaves on the Home screen.
2 Select the myFaves contact, by positioning the contact’s circle in the center of the screen, you want to replace.
3 Press MENU and then touch Replace contact.
4 Follow steps 3 o 5 of “Add myFaves contacts” on page 45.
3 Managing Your Time

3.1 Using Calendar

Use Calendar to create and manage events, meetings, and appointments. Depending on your synchronization settings, the Calendar on your phone stays in sync with your Calendar on the web.

Note For more information about Calendar synchronization, refer to “Synchronizing Google Applications” on page 104.

Open Calendar
1 Press HOME, then touch the Applications tab to open it.
2 Touch Calendar.

Create events

To create an event
1 On any Calendar view, press MENU and then touch New event to open the Event details screen.
2 Enter the event name using the keyboard.
3 Do one of the following:
   • If there is a time frame for the event, touch the From and To date and time to set them.
   • If it is a special occasion such as a birthday or a whole-day event, set the From and To date, then select the All Day check box.

4 Enter the event location and description.
5 If you have more than one calendar, select the Calendar where you want to save the event.

Note You can create multiple calendars, such as Personal, Business, or Family, using Calendar on the web. Depending on your synchronization settings, these calendars are added to your phone when you synchronize the Calendar. For more information on how to create calendars, go to http://www.google.com/support/calendar.

6 Set the event reminder time in Reminders, then select whether the event is recurring in Repetition.
7 When finished, touch Save.

Tip To quickly create an event in Day, Week, or Month view, touch and hold an empty time slot, then touch New event. A new Event details screen appears with the selected time slot and date in the From and To fields.
Calendar views
You can display the Calendar in daily, weekly, monthly, or agenda view. To change the Calendar view, press **MENU**, then touch **Day, Week, Month, or Agenda** (current view is not in the menu.)

While in a calendar view you can:
- To quickly view an event’s details while in **Day** or **Week** view, touch it or highlight it using the **TRACKBALL**. A quick view window appears on the lower part of the screen.
- Touch the quick view window to view details about the event.
- Touch and hold an event to open a window with options for viewing, editing, or deleting that event, or creating a new event.

Event reminders
If you set a reminder for an event, the upcoming event icon appears in the notifications area of the status bar, when the reminder time arrives.

**To view, dismiss, or snooze a reminder**
1 Touch the status bar, then slide your finger down the screen to open the Notifications panel.
2 Touch the upcoming event name to display the event. **Note** If you have other pending event reminders, these events will also appear on the screen.
3 Do one of the following:
   - Touch **Snooze all** to snooze all event reminders for five minutes.
   - Touch **Dismiss all** to dismiss all event reminders.
   - Press **BACK** to keep the reminders pending in the notifications area of the status bar.
Synchronize Microsoft® Office Outlook® calendar
You can synchronize Outlook calendar on your computer with Calendar on the web. Since Calendar on your phone can automatically synchronize with Calendar, you can access your Outlook calendar appointments and events on your phone anytime.
To learn how to synchronize, go to http://www.google.com/support/calendar.

3.2 Using Alarm Clock
Use your phone as an alarm clock. Alarm Clock lets you set an unlimited number of alarms.

To open Alarm Clock
Press HOME, then touch the Applications tab and then touch Alarm Clock.
When you open Alarm Clock for the first time, three alarms are set up by default, ready for you to customize. All three alarms are turned off by default.

Set an alarm
1 Touch one of the available alarms.
2 Touch Time to set the alarm time. Adjust the time by touching + or -. Touch AM to change to PM or vice versa, then touch Set when finished.
3 Touch Ringtone, then select the alarm ring tone. The ring tone plays when selected.
   Note Touch Vibrate if you want the phone to also vibrate when the alarm goes off.
4 Touch Repeat to select the days you want the alarm to sound, then touch OK.
   Note If you do not select any days for the alarm, the word Never will show which means that your alarm will only go off once.
5 Touch Label to set a name for the alarm.
6 Press BACK to return to the Alarm Clock screen.
   Note If you need to set more than 3 alarms, you can add more alarms while on the Alarm Clock screen by pressing MENU and then touching Add alarm.

You can temporarily disable an alarm by clearing the check box (by touching it) of the alarm on the Alarm Clock screen.
Customize Alarm Clock
You can change the appearance of the clock displayed on the Alarm Clock screen.
1 On the Alarm Clock screen, touch the clock with your finger to open the clock selection screen. Available clock displays appear at the bottom of the screen.
2 Slide your finger left or right on top of the clock displays to view them.
3 Touch the clock display you want.
   Note To hide the clock display, on the Alarm Clock screen, press MENU, then touch Hide clock.
Nota To change the date and time format displayed in your alarms, refer to “Set the date, time zone, and time” on page 99.

Delete an alarm
1 On the Alarm Clock screen, Touch the alarm you want to delete.
2 On the Set alarm screen, press MENU and then touch Delete alarm.

Silence all alarms
You can set whether alarms sound even when your phone is in Silent mode.
1 On the Alarm Clock screen, press MENU and then touch Settings.
2 Touch Alarm in silent mode to set whether alarms play when the phone is otherwise in silent mode.
3 When you are done, press BACK.
4 Exchanging Messages

4.1 Sending Text and Multimedia Messages

Messaging lets you compose and send text (SMS) and multimedia messages (MMS) to other mobile phones.

Open Messaging
Press HOME, then touch the Applications tab, and then touch Messaging. The message list appears.

Create and send SMS and MMS messages
You can compose text (SMS) messages of up to 160 characters. If you continue to type after the limit is reached, your message will be delivered as one, but count as more than one message. These are called concatenated messages.

Multimedia messages, also known as MMS, can contain text and a picture, a recorded voice, an audio file, or a picture slideshow.

Note Messaging automatically converts a text message into a multimedia message when you entered an email address in the To field, added a message subject, or attached an item.
To create and send a text message

1 On the Messaging screen, touch **New message**. The Compose screen opens.
2 Enter the mobile phone number of the message recipient in the **To** field. As you enter the phone number, matching contacts will appear on the screen. Touch a recipient or continue entering the recipient’s phone number.

3 Touch the text box that contains the text “**Type to compose**”, then start composing your message.
   - **Note**: As you near the 160-character limit, a counter will appear in the top right corner of the text box to tell you how much characters are left. Once you go over that limit, a new message is created but automatically joined into one when received.
4 When done, touch **Send** to send the text message. The send progress is displayed at the right side of the message in the message thread or in the message list.

**Note**: To receive delivery reports and know when a text message is received, in the message list, press **MENU** and then touch **Settings**. In the SMS settings section, select the **Delivery reports** check box.

To create and send a multimedia (MMS) message

1 On the Messaging screen, touch **New message**. The Compose screen opens.
2 Enter the mobile phone number or email address of your message recipients in the **To** field. As you enter the phone number or email address, matching contacts will appear on the screen. Touch a recipient or continue entering the recipient’s phone number or email address.

   - **Tip**: You can add a subject line by pressing **MENU** and then touching **Add subject**.
3 Touch the text box that contains the text “**Type to compose**”, then start composing your message.
   - **Note**: As you near the 160-character limit, a counter will appear in the top right corner of the text box to let you know how many characters you can still enter before you reach the limit for one message.
4 Press **MENU** and then touch **Attach**.
5 On the Attach window, select from the following file attachments:
   - **Pictures**: Opens the Gallery application. Touch a picture on the screen to attach it to your message.
   - **Capture picture**: Opens the Camera application. Take a picture of your subject, then touch **Attach** to attach it to your message. For more information about the Camera application, refer to “Using Camera and Camcorder” on page 84.
   - **Videos**: Opens the Gallery application. Touch a video on the screen to attach it to your message.
   - **Capture video**: Opens the Camcorder application. Take a video, then touch **Attach** to attach it to your message. For more information about the Video application, refer to “Using Camera and Camcorder” on page 84.
• **Audio**. Opens the Select audio menu. Touch an audio file to select, then touch **OK** to attach the file into your message.

• **Record audio**. Touch to open the message recorder. Touch  to start recording your message, then touch  to stop. To listen to your recording, touch . Touch **Use this recording** to attach the recording to your message.

![Recording screen]

- Recording duration
- Volume meter
- Recording and playback controls

• **Slideshow**. Touch to open the Edit slideshow screen. Touch **Add slide** to create a new slide. Touch the created slide (for example, Slide 1), touch **Add picture**, then select the picture you want to add to the slide. You can also navigate to the text box and enter a caption for the picture. Press **MENU** to preview the slide, remove the picture, add a music, add another slide, or change the slide duration or layout. When finished, touch **Done** to attach the slideshow to your message.

![Slideshow screen]

- Slide 1
- Add slide
- Add picture
- The arena

**Tip** You can create a slideshow of up to ten slides. When editing multiple slides, touch  to edit the next slide or touch  to return to the previous slide.

**Notes**

• To view the slideshow, touch the **Preview** button while editing the slideshow, or touch the **Play** button on the Compose screen.
• To remove or replace a picture or an audio attachment, on the Compose screen, touch the **Remove** button beside the attachment. To remove a slideshow attachment, on the Compose screen, touch **Edit**, press **MENU**, then touch **Discard slideshow**.

6 When you are finished composing the multimedia message, touch **Send**. The send progress is displayed at the right side of the message in the message thread or in the message list.

**Note** To receive delivery reports and know when a picture message is received, in the message list, press **MENU**, then touch **Settings**. Select the **Delivery reports** check box below the MMS settings section.

**To save a message as a draft**
While composing a text or multimedia message, press **BACK** to automatically save your message as a draft. To resume composing the message, touch the message in the message list. Continue editing the message, then touch **Send** to send it.

**Receive text and multimedia messages**
Depending on your notification settings, the phone will play a ring tone, vibrate, or display the message briefly in the status bar when you receive a new text or multimedia message. To change the notification for new text and multimedia messages, refer to “Adjust text and multimedia message settings” on page 56.

A new message icon also appears in the notifications area of the status bar to notify you of a new text or multimedia message. To open the message, refer to the next section.

**Manage messages and message threads**
Text and multimedia messages that are sent to and received from a contact (or a number) are grouped into conversations or message threads. Threaded text or multimedia messages let you see exchanged messages (similar to a chat program) with a contact on the screen. Message threads are listed in order of when you received them, with the latest message on top of the thread.

**To open and read a text message**
Do one of the following:

• Press **HOME**, then touch and hold the status bar, and then slide it down to open the Notifications panel. Touch the new message to open and read it.

• On the message list, touch the text message or message thread to open and read it.

To return to the message list from a text message thread, press **MENU** and then touch **All threads**.

**Notes**

• To view the details of a particular message, in the message thread, touch and hold the message to open the options menu, then touch **View message details**.

• If a message contains a link to a web page, touch the link to open Browser and view the web page.

• If a message contains a phone number, touch the message to open Dialer so you can call the number.
To open and view a multimedia message

1. In the message list, touch a multimedia message or message thread to open it.
2. Touch the Play button at the right side of a multimedia message to view it.

**Tip** You can save the file attachment on the multimedia message to the SD card. To save, touch and hold the file and then touch Copy attached to SD card on the options menu.

**Notes**
- When Auto-retrieve in MMS settings is disabled, only the message header is downloaded. To download the entire message, touch the Download button at the right side of the message. Once the message has downloaded, touch the Play button to view the message. For details, refer to "Adjust text and multimedia message settings" on page 56.
- If you are concerned about the size of your data downloads, check the multimedia message size before you download it.

To reply to a text or multimedia message

1. In the message list, touch a text or multimedia message thread to open it.
2. Use the TRACKBALL to navigate to the text box at bottom of the screen, enter your reply message, and then touch Send.

**Tip** To reply a text message with a multimedia message, open the text message, press MENU and then touch Add subject, or Attach. The text message is automatically converted into a multimedia message.

To delete a message or a message thread

1. In the message list, touch the message thread that you want to delete.
2. Do one of the following:
   - To delete the entire thread, press MENU and then touch Delete thread. When prompted to confirm, touch OK.
   - To delete a message in a thread, touch and hold the message that you want to delete, then touch Delete message on the options menu. When prompted to confirm, touch OK.

**Note** To delete all messages on the message list, press MENU on the message list and then touch Delete threads.
Adjust text and multimedia message settings

In the message list, press **MENU** and then touch **Settings** to adjust the text or multimedia message settings. You can set the following options:

<table>
<thead>
<tr>
<th><strong>SMS settings</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Delivery reports</strong></td>

4.2 Using Gmail

Gmail is Google’s web-based email service. Gmail is configured when you first set up your phone. Depending on your synchronization settings, Gmail on your phone is automatically synchronized with your Gmail account on the web. For more information about synchronization, see “Synchronizing Google Applications” on page 104.

To open Gmail

Press HOME, then touch the Applications tab, and then touch Gmail.

The Inbox conversations list (hereinafter referred to as Inbox) is your default Gmail view. All your received emails are delivered to your Inbox.

Tip If you rarely perform actions on batches of conversations (that is, multiple conversations that you check in the left column), you can hide checkmarks in conversation lists by pressing MENU, touching Settings, and unselecting Batch operations.

To refresh Gmail

Press MENU and then touch Refresh to send or receive new emails and to synchronize your emails with your Gmail account on the web.

Create and send emails

To create and send an email

1. In the Inbox, press MENU and then touch Compose.

2. Enter the message recipient’s email address in the To field. If you are sending the email to several recipients, separate the email addresses with a comma. You can add as many message recipients as you want.

   Note If you want to send a carbon copy (Cc) or a blind carbon copy (Bcc) of the email to other recipients, press MENU and then touch Add Cc/Bcc.

3. Enter the email subject, then compose your email.
Tip If you want to add a picture attachment, press MENU, touch Attach, and then touch the picture you want to attach.

Touch to remove the attachment.

After composing your email, touch Send.

Note While composing the message, touch Save as draft to save it as a draft. To view your draft email messages, in the Inbox, press MENU and then touch View labels > Drafts.

To add a signature to emails
You can add a signature to email messages that you send.

1 In the Inbox, press MENU and then touch Settings > Signature.
2 Enter your signature in the text box, then touch OK.
   Tip You can create a signature consisting of multiple lines of text. At the end of each line of text, touch on the onscreen keyboard to create another line.

To view your sent messages
In the Inbox, press MENU and then touch View labels > Sent.

Receive and read emails
Depending on your notification settings, the phone plays a ring tone, vibrates, or displays the email message briefly in the status bar when you receive a new email. A new email message icon also appears on the notifications area of the status bar to notify you of a new email.

Note For more information on email notification settings, refer to “Set Gmail settings” on page 60.

Gmail groups messages with their responses. This conversation list continues to grow as new replies arrive, so you can always see your messages in context. Conversations are also referred to as message threads. A new message or a change to the subject of a current message will begin a new thread.
To view emails

Do one of the following:

- Press HOME, then touch and hold the status bar, and then slide down your finger on the screen to open the Notifications panel. Touch the new email to view it.
- While in the Inbox, touch the unread email or the conversation with the unread email to view it.

If the sender of a message is a friend who uses Google Talk, the friend’s status (available, busy, and so on) is indicated by the colored icon to the left of the friend’s name.

To search for email messages

You can search for a specific email message by sender, by subject, by label, and by using the advanced search options described on the Gmail web site. Your searches cover all the email in your Gmail account on the web, not just the email you have downloaded to your phone.

1 In the Inbox, press MENU and then touch Search.
2 Enter the search keyword in the box, then touch Search.

Reply to or forward emails

1 In the message thread, scroll down to the end of the conversation.
2 Touch Reply, Reply to all, or Forward.
3 Do one of the following:
   - If you selected Reply or Reply all, enter your reply message.
   - If you selected Forward, specify the message recipients.
4 Touch Send.
Manage conversations and emails

Conversations

In the Inbox, touch and hold the conversation, then touch:

- **Read** to return to the message.
- **Archive** to archive the email message.
  
  Tip: To display your archived messages, in the Inbox, press **MENU**, then touch **View labels > All Mail**.
- **Mute** to mute the entire conversation.
  
  Tip: If you're part of a long message conversation that isn't relevant, you can 'mute' the conversation to keep all future additions out of your inbox.
- **Mark read** or **Mark unread** as desired. Unread messages or threads with unread messages display in bold in the Inbox.
- **Delete** to delete the email message.
- **Add star** or **Remove star** to assign a star or remove the star on the conversation.
- **Change labels** to add or change the label of the conversation.
  
  Note: You cannot use the phone to create labels; do that on the Gmail web site.
- **Report spam** to report the conversation as spam.

Email messages

In the message thread, navigate to the email header or message using the **TRACKBALL**, press **MENU** and then touch:

- **Archive** to archive the email message.
  
  Tip: To display your archived messages, in the Inbox, press **MENU**, then touch **View labels > All Mail**.
- **Add star** or **Remove star** to assign a star or remove the star on the conversation.
- **Mark read** or **Mark unread** as desired. Unread messages or threads with unread messages display in bold in the Inbox.
- **Change labels** to add or change the label of the conversation.
  
  Note: You cannot use the phone to create labels.
- **Delete** to delete the email message.
- **More >**
  
  - **Back to Inbox** to return to your inbox.
  - **Mute** to mute the entire conversation. When you mute a message, new emails added to the conversation will not go to your inbox anymore. The conversation remains archived.
  - **Report spam** to report the email message as spam.

Set Gmail settings

1 In the Inbox, press **MENU** and then touch **Settings**.
2 Set the following options:

- **Signature** Touch to enter a signature that is appended at the end of your emails.
- **Confirm delete** Select the check box to show a confirmation box when you delete a conversation.
- **Batch operations** Select the check box to show the batch operations feature. The Batch operations feature lets you archive, delete, or apply a label to multiple emails at once.
- **Labels** Touch to select which Gmail labels to synchronize.
- **Email notifications** Select the check box to show a notification icon in the status bar when you receive a new email.
• Touch **Select ringtone** if you want your phone to ring when a new email message arrives. On the ring tone menu, select a ring tone specific to new email messages. The ring tone plays briefly when selected. If you don’t want a ring tone to play when you receive a new email message, touch **Silent**. Then touch **OK** to confirm your ringtone selection.
• Select **Vibrate** if you want your phone to vibrate when you receive a new email message.

### 4.3 Using Email

The Email application comes with an email wizard that lets you add external POP3 or IMAP email accounts from popular web-based email service providers such as Yahoo® Mail Plus, AOL, and more, on your phone.

**To open Email**

Press **HOME**, then touch the Applications tab, and then touch **Email**.

**Add an email account**

1. Press **HOME**, then touch the Applications tab, and then touch **Email**.
2. In the Your accounts screen, touch **Next**.
3. Enter the email address and password of the email account you want to set up and then touch **Next**.

**Notes**

- If the email account you want to set up is not in the phone’s email database, you will be prompted to manually enter the email account settings, such as the email server, protocol and more after touching **Next**.
- Touch **Manual setup** instead of **Next** to directly enter the incoming and outgoing settings for the email account you are setting up.
4. Enter the name for the account and the name you want displayed in outgoing emails and then touch **Done**.

After creating one email account, you need to press **MENU**, then touch **Add account** to create another email account.

**Compose and send emails**

1. Press **HOME**, then touch the Applications tab, and then touch **Email**.
2. In the Your accounts screen, touch the email account you want to use.
3. In an email account inbox, press **MENU**, then touch **Compose**.
4. Enter the message recipient’s email address in the **To** field. As you enter information, matching contacts will appear on the screen. Touch the recipient or continue entering the email address. If you are sending the email to several recipients, separate the email addresses with a comma. You can add as many message recipients as you want.
5. Enter the subject, then compose your message.
6. Touch **Send**.

**Note** Touch **Save as draft** or press the **BACK** button to save the message as a draft.
Manage emails on your external email account

To delete a message
1. On the email account inbox, touch and hold the email you want to delete.
2. On the options menu, touch **Delete**.

Edit or delete an external email account

You can edit or delete an external email account on your phone.

1. Press **HOME**, touch the Applications tab, then select **Email**.
2. Do one of the following:
   - To delete, touch and hold the account you want to remove, then touch **Remove account** on the options menu. When prompted to confirm deletion, touch **OK**.
   - To edit, touch and hold the account you want to edit, then touch **Account settings** on the options menu.

Add more email accounts

On the Your accounts screen, press **MENU** and then touch **Add account**.

4.4 Using Google Talk

Google Talk is Google’s instant messaging program. It lets you communicate with other people that also use Google Talk on a phone or on the web.

**Note** The Google Talk account that is set up is based on the Google Account that you used when you set up the phone.

Sign in and chat online

To sign in to Google Talk

Press **HOME**, then touch the Applications tab, and then touch **Google Talk**.

Touch to change your online status message.

- **Friends list**
  - Touch to change your picture.
  - Touch to change your status.
  - Opened chats. Touch a callout to open the chat screen and start chatting with your friend.

- **Online status:**
  - Available
  - Idle
  - Busy
  - Offline
To add a new friend

You can only add people who have a Google Account.

1 In the Friends list, press **MENU** and then touch **Add friend**.
2 Enter the Google Talk instant messaging ID or Google email address of the friend you want to add.
   **Note** When you add a friend with an instant messaging ID and has been saved in your contacts list, matching contacts will display on the screen as you enter information. You can touch the contact or continue entering the IM information.
3 Touch **Send invitation**.

To view and accept an invitation

1 In the Friends list, press **MENU** and then touch **Invites**. All chat invitations you have sent or received are listed on the pending invitations screen.
2 Touch a pending invitation, then touch **Accept** or **Decline**.
   **Note** When someone you invite to chat accepts your invitation, the pending invitation disappears from the list.

To change your online status and message

1 Touch the online status icon beside your name, then select the status you want on the menu.
2 Touch the text box on the left of your online status icon and then enter your status message using the onscreen keyboard.
3 Touch **Done** on the onscreen keyboard.
   **Tip** The status you set in Google Talk, here or on the web, can be displayed to your friends in other applications, including Gmail, Google Maps (with Google Latitude™), IM, and Email.

To start a chat

1 Do one of the following:
   • Touch the name of a friend in the Friends list.
   • Navigate to a friend using the **TRACKBALL**, then press the **TRACKBALL**.

2 Chat with your friend by entering text using the onscreen keyboard.
   **Note** To insert a smiley, touch and hold the smiley key to bring up the smiley menu. Touch a smiley to insert it into your message.
3 After entering your message, touch **Send**.
To switch between active chats
You can switch between chats if you have more than one chat going.

1 While on a chat screen or in the friends list, press MENU and then touch Switch chats.
2 On the panel that opens, touch the friend you want to chat with.

To close a chat
Do one of the following:
• In your Friends list, touch and hold a friend with an active chat and then touch End chat on the menu.
• While on a chat screen, press MENU and then touch End chat.

Manage your friends
Friends in your friends list is sorted by their online status — active chats, online, busy, and offline. Within the status groupings, friends are listed alphabetically.

By default, only the friends that you frequently communicate with — the most popular — are in the Friends list. If you want to display all your friends, press MENU and then touch All friends.

Tip To switch back to displaying only your most popular friends, press MENU and then touch Most popular.

To find a friend
In the Friends list, start entering the name of your friend to filter your list to show only friends with names that match what you have entered.

To block a friend
You can block a friend from sending you messages. When blocked, your friend is also removed from your Friends list.

1 In the Friends list, locate the friend you want to block.
   Note If you cannot see the friend, Press MENU and then touch All friends.
2 Touch and hold the friend’s name, then touch Block friend. Your friend is removed from your friends list and is added to the blocked friends list.

Note To unblock a friend, in the Friends list, press MENU and then touch Blocked. In the Blocked friends list, touch the name of the friend you want to unblock, then touch OK when prompted.

To pin a friend
You can pin a friend to make sure that friend always appears in your Most popular friends list.

1 In the Friends list, Touch and hold the friend’s name to open the options menu.
   Note If you cannot see the friend, Press MENU and then touch All friends.
2 Touch Pin friend.

Note To unpin a friend, in the Friends list, touch and hold the friend you want to unpin and then touch Unpin friend on the options menu.

To show a friend in the Most popular list
1 In the Friends list, touch and hold the friend’s name to open the options menu.
   Note If you cannot see the friend, Press MENU and then touch All friends.
2 Touch Show friend.
Note To keep a friend from appearing in the most popular list, touch and hold the friend’s name, then touch Hide friend on the menu. If you pinned the friend, the pin will be removed when you hide the friend.

Mobile indicators
You can check what type of device your friend is using to chat in Google Talk. In the friends list, check the image that appears to the right of your friend’s name.

When you do not see an image, it indicates that your friend signed in last from a computer.
You can also choose to show a mobile indicator. To show:
1 In the Friends list, press MENU and then touch More > Settings.
2 Select the Mobile indicator check box and then press BACK. The mobile indicator icon will display along with your name in other people’s Friends list and will let your friends know what type of mobile device you are using.

Adjust instant messaging settings
To set notifications for new instant messages
You can set the phone to play a sound, vibrate, or display a notification icon in the status bar each time you receive a new instant message.
1 In the Friends list, press MENU and then touch More > Settings.
2 Do one or all of the following:
   • Select the IM notifications check box to receive a notification in the status bar when a new instant message arrives.
   • Touch Select ringtone to select the ring tone to use when a new instant message arrives. The ring tone briefly plays when selected. If you don’t want a ring tone to play when you receive a new instant message, select Silent.
   • Select the Vibrate check box to vibrate your phone when you receive a new instant message.

To sign in automatically
You can sign in to your Google Talk account automatically every time you turn on your phone.
1 In the Friends list, press MENU and touch More > Settings.
2 Select the Automatically sign in check box.
3 Press BACK to save your setting.

Sign out
In the friends list, press MENU and touch More > Sign out when you want to sign out from Google Talk.
5 Getting Connected

5.1 Connecting to the Internet

Your phone’s networking capabilities allow you to access the Internet through one of the following connections:

- GPRS/3G/EDGE
- Wi-Fi

GPRS/3G/EDGE

Your phone will be automatically configured to use your wireless service provider’s GPRS/3G/EDGE service when you turn on your phone (if the SIM card is inserted) for the first time.

To check the network connection you are using

1. Press HOME, then press MENU, and then touch Settings.
2. Touch Wireless Controls > Mobile networks > Network operators or Access Point Names.

To create a new access point

When you need to add another GPRS/3G/EDGE connection on your phone, obtain the access point name and settings (including username and password if required) from your wireless service provider.

1. Press HOME, then press MENU, and then touch Settings.
2. Touch Wireless Controls > Mobile networks > Access Point Names.
3. On the APNs screen, press MENU and then touch New APN.
4. In the Edit access point screen, enter the APN settings. Touch the APN setting item to edit it.
5. Press MENU and then touch Save when you finish setting up the new APN.

Wi-Fi

Wi-Fi provides wireless Internet access over distances of up to 300 feet (100 meters). To use Wi-Fi on your phone, you need access to a wireless access point or “hotspot”.

Note The availability and range of the Wi-Fi signal depends on the number, infrastructure, and other objects through which the signal passes.

To turn Wi-Fi on and connect to a wireless network

1. Press HOME, then press MENU, and then touch Settings > Wireless controls.
2. Select the Wi-Fi check box to turn Wi-Fi on. The phone will scan for available wireless networks.
3. Touch Wi-Fi settings. The network names and security settings (Open network or Secured with WEP) of detected Wi-Fi networks are displayed in the Wi-Fi networks section.
4. Touch a Wi-Fi network to connect. When you selected an open network, you will be automatically connected to the network. If you selected a network that is secured with WEP, enter the WEP (security) key and then touch Connect.
Notes

• The next time your phone connects to a previously accessed secured wireless network, you will not be prompted to enter the WEP key again, unless you reset your phone to its factory default settings.
• Wi-Fi networks are self-discoverable, which means no additional steps are required for your phone to connect to a Wi-Fi network. It may be necessary to provide a username and password for certain closed wireless networks.

To check the wireless network status

You can check the current wireless connection status from the following:

• Status bar
  When your phone is connected to a wireless network, the Wi-Fi icon appears in the status bar and tells you the approximate signal strength (number of bands that light up). If Network notification in Wi-Fi settings is enabled, this icon appears in the status bar whenever the phone detects an available wireless network within range.

• Wi-Fi networks
  On the Wireless controls screen, touch Wi-Fi settings, then touch the wireless network that the phone is currently connected to. The Wi-Fi network name, status, speed, signal strength, security information, and IP address are displayed.

  Note If you want to remove the wireless network settings on your phone, touch Forget on this window. You will need to enter the settings again if you want to connect to this wireless network.

To connect to another Wi-Fi network

1 On the Wireless controls screen, touch Wi-Fi settings. Detected Wi-Fi networks are displayed in the Wi-Fi networks section.
   Tip To manually scan for available Wi-Fi networks, on the Wi-Fi settings screen, press MENU and then touch Scan.
2 Touch another Wi-Fi network to connect to it.

  Note If the wireless network you want to connect to is not in the list of detected networks, scroll down the screen, then touch Add Wi-Fi network. Enter the wireless network settings, then touch Save.
5.2 Using Browser

Open Browser to start surfing the web. Browser is fully optimized and comes with advanced functionalities that let you enjoy Internet browsing on your phone.

**Note** You must have an active data (3G, GPRS), or Wi-Fi connection to access the Internet.

**To open Browser**

Do one of the following:

- Press **HOME**, then touch **Browser**.
- Press **HOME**, then touch the Applications tab, and then touch **Browser**.

**Note** Browser automatically opens when you touch a web link in an email or text message.

**To go to a web page**

1. On the Browser screen, press **MENU** and then touch **Go**.
2. Enter the web page address using the keyboard. As you enter the address, matching web page addresses will appear on the screen. Touch an address to go directly to that web page or continue entering the web page address.
3. Touch **Go**.

**To set your home page**

1. Press **MENU** and then touch **More > Settings > Set home page**.
2. Enter the URL of the web site you want to use as your home page and then touch **OK**.

**View web pages**

Browser offers a host of features that let you view web pages just like on a desktop computer.

**To change the screen orientation to landscape view**

Turn your phone sideways to view the web page in landscape mode. The screen orientation automatically adjusts to how you hold the phone.

**Note** The Orientation check box in **HOME > MENU > Settings > Sound & display** needs to be selected for the screen orientation to automatically change.

**To navigate on a web page**

You can roll the **TRACKBALL** or slide your finger on the screen in any direction to navigate and view other areas of the web page.

You can also use scale and scroll to magnify an area of the web page for easy viewing. To use scale and scroll:

1. On a web page, press the **TRACKBALL** twice. The web page zooms out to fit the height of the screen and the magnifying window appears.
2 Touch and hold the magnifying window, then drag it to the area of the page that you want to view more closely. You can also roll the TRACKBALL to move the magnifying window on any area of the screen.

3 Release your finger or press the TRACKBALL to magnify the view. The view is magnified using the zoom ratio used when you activated scale and scroll.

To zoom in or out on a web page
Slide your finger to one direction on the screen to activate the zoom controls.

To open a new browser window
Open multiple browser windows to make it easier for you to switch from one web site to another. You can open up to 8 browser windows.

To open a new window, press MENU and then touch New window while browsing a web page. A new browser window opens and goes to the home page that is set.

Note If you have two or more browser windows opened, press MENU and then touch Windows to let you add more browser windows.

To switch between browser windows
1 On a browser window, press MENU and then touch Windows.

2 On the Current windows screen, touch the browser window you want to view.
To close a browser window, touch \( \times \) on the browser window you want to close.

To find text within a web page

1. While viewing a web page, press **MENU** and then touch **More > Find on page**.
2. Enter the search item. As you enter characters, matching characters will be highlighted in green. Touch the left or right arrow to go to the previous or next matching item.

   ![Find on page](image)

**Tip** Touch \( \times \) to close the search bar.

To copy text on a web page

Copy text from web pages and then paste them on emails or your SMS/MMS messages.

1. Open the web page where you want to copy text.
2. Locate the text you want to copy and then press **MENU** and then touch **More > Select text**.
   **Tip** Zoom out of the page before you select text.
3. Position your finger at the start of the text you want to copy and then drag to the end of the text you want to copy. Copied text are highlighted in pink.
4. Release your finger from the screen.

To paste text on an email or SMS/MMS message, touch and hold the text box on a message or email and then touch **Paste** on the options menu.

Manage links, history, and downloads

To select links in web pages

Navigate to links on a web page using the **TRACKBALL**. Links are enclosed in an orange or green box when selected.

![Select links](image)

**Link** | **What to do**
--- | ---
**Web page address (URL)** | • Touch the link to open the web page.  
| | • Touch and hold the link to open a menu that allows you to open, bookmark, copy to the clipboard, or share the link via email.
Browser also recognizes some phone numbers and addresses that allow you to call the phone number or locate the address in Google Maps™. Recognized phone numbers and addresses are highlighted in green when navigated to.

<table>
<thead>
<tr>
<th>Link</th>
<th>What to do</th>
</tr>
</thead>
<tbody>
<tr>
<td>Email address</td>
<td>• Touch to send an email message to the email address.</td>
</tr>
<tr>
<td></td>
<td>• Touch and hold, then touch <strong>Copy</strong> on the menu to copy the email address to the clipboard. You can paste the email address later when creating a new contact or sending a new email message.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Link</th>
<th>What to do</th>
</tr>
</thead>
<tbody>
<tr>
<td>Location address</td>
<td>Touch the address to open Google Maps and locate the address.</td>
</tr>
<tr>
<td>Phone number</td>
<td>Touch to open the Phone screen to call the phone number.</td>
</tr>
</tbody>
</table>

**Tip** When links are too small for touching directly on the screen, highlight it with the **TRACKBALL**, then either press the **TRACKBALL** to open the link, or press and hold the **TRACKBALL** to select an option from the menu.

**To check Browser history**

On the Browser screen, press **MENU** and then touch **Bookmarks > History** tab. Touch an item to open the web page.

**Tip** You can also check your most visited web pages by pressing **MENU** and then touching **Bookmarks > Most visited** tab.

**To allow download of web applications**

Before you can download web applications, you must first enable downloading from the phone settings.

1. Press **HOME**, then press **MENU**, and then touch **Settings > Applications**.
2. Select the **Unknown sources** check box.
3. When the Attention dialog box opens, touch **OK**.

**Note** All downloaded applications are saved to the storage card. Before you download an application from the web, make sure that you have installed a storage card on your phone. For information on how to install a storage card, refer to “To install the storage card” on page 18.

**Warning!** Applications downloaded from the web can be from unknown sources. To protect your phone and personal data, download applications only from trusted sources such as Android Market. Refer to “Installing an application” on page 96 for details.
To view your downloads
On a browser screen, press **MENU** and then touch **More > Downloads**.

**Manage bookmarks**
You can store as many bookmarks as you want on your phone.

**To bookmark a web page**
1. On a browser screen, go to the web page you want to bookmark.
2. Press **MENU** and then touch **Bookmarks**. The bookmarks screen opens.
3. On the **Bookmarks** tab, touch **Add bookmark**.
4. Edit the bookmark **Name** if needed and then touch **OK**.

**To open a bookmark**
1. On the Browser screen, press **MENU** and then touch **Bookmarks**.
2. On the **Bookmarks** tab, do one of the following:
   - Touch the bookmark you want to open.
   - Touch and hold the bookmark you want to open, then touch **Open** or **Open in new window** on the options menu.

**To edit a bookmark**
1. On the Browser screen, press **MENU** and then touch **Bookmarks**.
2. On the **Bookmarks** tab, touch and hold the bookmark you want to edit.
3. Touch **Edit bookmark** on the options menu. The edit bookmark dialog box appears.
4. Enter your changes and touch **OK**.

**Adjust Browser settings**
On the Browser screen, press **MENU** and then touch **More > Settings** to set the Browser settings and options.
5.3 Amazon MP3

Amazon MP3 provides you with one-touch access to digital music from Amazon.com. Amazon.com has more than 6 million DRM-free MP3 tracks you can purchase and download to your phone.

**Note** You can only download MP3s using a Wi-Fi connection. You can browse and preview songs using a 3G connection.

**To open Amazon MP3**
Press HOME, touch the Applications tab, and then touch Amazon MP3.

5.4 Using Bluetooth

Bluetooth is a short-range wireless communications technology that allows Bluetooth devices to exchange information over a distance of about eight meters without requiring a physical connection. Bluetooth on your phone operates in three different modes:

- **On.** Bluetooth is turned on. Your phone can detect other Bluetooth-enabled devices, but not vice versa.
- **Discoverable.** Bluetooth is turned on, and all other Bluetooth-enabled devices can detect your phone.
- **Off.** Bluetooth is turned off. In this mode, you can neither send nor receive information using Bluetooth.

**Notes**

- By default, Bluetooth is turned off. If you turn it on, then turn off your phone, Bluetooth also turns off. When you turn on your phone again, Bluetooth automatically turns on.
- Turn off Bluetooth when not in use to conserve battery power, or in places where using a wireless device is prohibited, such as on board an aircraft and in hospitals.

**To turn on Bluetooth and make the phone discoverable**

1. Press HOME, then press MENU, and then touch Settings.
2. Touch Wireless controls, then select the Bluetooth check box to turn on Bluetooth. When on, the Bluetooth icon appears in the status bar.
3. Touch Bluetooth settings, then select the Discoverable check box to make the phone discoverable to other Bluetooth devices that are within range.

**Important** Your phone will be discoverable for up to two minutes.
To change the phone name
The phone name identifies your phone in a Bluetooth network.
1. Make sure that you have turned Bluetooth on.
2. On the Wireless controls screen, touch Bluetooth settings > Device name.
3. Enter the name for your phone in the dialog box, then touch OK.

To pair and connect a Bluetooth hands-free headset or car kit
You can connect your phone to a Bluetooth hands-free headset or a Bluetooth car kit and use those devices to send and/or receive calls. Before you can use a Bluetooth hands-free headset or car kit, you must pair it first with your phone.

Important The phone supports the following Bluetooth profiles: Headset, Handsfree, A2DP, and AVRCP.
1. Press HOME, then press MENU, and then touch Settings.
2. Touch Wireless controls > Bluetooth settings and then select the Bluetooth check box. Your phone will start to scan for Bluetooth devices within range and will display all detected devices below the Bluetooth devices section.
   Tips
   • If you do not find the device in the list, touch Scan for devices to scan again.
   • Make sure that the Bluetooth device that you want to pair with is set to discoverable mode. Consult the Bluetooth device’s documentation to learn how to set it to discoverable mode.
3. Touch the hands-free headset or car kit in the list to start pairing.
   Note For some Bluetooth devices, you need to enter a passcode to pair with the Bluetooth device. You can try “0000” as the passcode. If that does not work, consult the Bluetooth device’s documentation.
4. The pairing and connection status will appear below the hands-free headset or car kit name in the Bluetooth devices list. When the other Bluetooth hands-free headset or car kit is connected to your phone, the Bluetooth connected icon  will appear in the status bar. You can now start using the hands-free headset or car kit to make and/or receive phone calls.

Notes
• Pairing between two Bluetooth devices is a one-time process. Once pairing is created, the devices can recognize the partnership and exchange information without entering a passcode again.
• If you pair with a second headset while connected to the first, the first headset will be disconnected. To switch connection back to the first headset, you must manually select that headset again in the Bluetooth devices list.

To disconnect a Bluetooth hands-free headset or car kit:

1. Press HOME, then press MENU, and then touch Settings.
3. Navigate to the Bluetooth devices section, then touch and hold the connected hands-free headset or car kit.
4. Touch Disconnect.

Touch Unpair if you want the phone to erase all pairing information with the hands-free headset or car kit. You will be prompted to enter the passcode again when you connect to that Bluetooth device.
6  Getting Around with Maps

6.1  Using Maps

Maps lets you track your current location, view real-time traffic situations, and receive detailed directions to your destination. It also provides a search tool where you can locate places of interest or an address on a vector or aerial map, or view locations in street level.

Notes
• You need an active data (3G/GPRS) or Wi-Fi connection to use Maps.
• The Maps application does not cover every country or city.

Enable Location source
Before you open Maps and find your location or search for places of interest, you must enable Location source.
1  Press HOME, press MENU and then touch Settings.
2  Touch Security & location.
3  Navigate to the My Location sources section, then select Use wireless networks, Enable GPS satellites, or both.

Note Selecting Enable GPS satellites lets you locate places of interest in street-level. However, this requires a clear view of the sky and more battery power.

Open Maps
Do one of the following:
• Press HOME, then touch Maps.
• Press HOME, touch the Applications tab and then touch Maps.

Find your location on the map
On the Maps screen, press MENU and then touch My Location. Your location is shown on the map as a blinking blue dot.
6.2 Searching for Places of Interest

To search for a place of interest

1. On the Maps screen, press **MENU** and then touch **Search**.
2. Enter the place you want to search in the search box. You can enter an address, a city, or type of business or establishment (for example, museums in London).

**Tip** As you enter information, a list of all the places which you have searched or visited before appears on the screen. You can also touch an address on the menu to show its location on the map.
3. Touch **Search**.
4. Touch a place in the list to show its location on the map.

**Tip** On the map, roll the **TRACKBALL** left or right to view the location of the previous or the next place in the Search results list.
5. Touch the call-out on the map to open the location details and options.
6.3 Viewing Maps

While viewing a map, take advantage of the following zoom and navigation techniques.

**Zoom in or out on a map**

Touch the screen to show the zoom controls.

**Navigate on a map**

Roll the TRACKBALL or slide your finger on the screen in any direction to view other areas of the map.

**To change a map mode**

When viewing a map, you can switch to another map mode. Press MENU and then touch Map mode. Select from Map, Satellite, Traffic, or Street View.

<table>
<thead>
<tr>
<th>Map mode</th>
<th>Satellite mode</th>
<th>Traffic mode</th>
<th>Street view mode</th>
</tr>
</thead>
<tbody>
<tr>
<td>This is the default view and displays a map, complete with names of streets, rivers, lakes, mountains, parks, and boundaries.</td>
<td></td>
<td></td>
<td>2222 Main St Press here to enter Street View.</td>
</tr>
</tbody>
</table>
6.4 Getting Directions

Use Maps to get detailed directions to your destination.

To get directions

1. While viewing a map in any mode (except in Street View), press **MENU** and then touch **Directions**.
2. Enter the starting point in the first text box, then enter your destination in the second text box.

<table>
<thead>
<tr>
<th>Satellite mode</th>
<th>Maps uses the same satellite data as Google Earth™ mapping service. Satellite images are not real-time. Google Earth acquires the best imagery available, most of which is approximately one to three years old.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Traffic mode</td>
<td>Real-time traffic conditions are displayed over roads as color-coded lines. Each color represents how fast the traffic is moving.</td>
</tr>
<tr>
<td>(available only in selected areas)</td>
<td></td>
</tr>
<tr>
<td>Street View mode</td>
<td>Provides a street-level view of the location. Blue outlined roads indicate that street view is available on those locations. While viewing a Street View of a location, press <strong>MENU</strong> and then touch Compass mode to turn Compass mode on. Tilt, pan, or turn your phone to view the area around the selected location.</td>
</tr>
<tr>
<td>(available only in selected areas)</td>
<td></td>
</tr>
</tbody>
</table>

Touch to switch your starting point and destination.

You can also touch "" to open the location source menu and select a starting point and destination address.
3 Touch **Route**. The directions to your destination appears in a list.

When you are finished viewing or following the directions, press **MENU**, then **More**, then touch **Clear map** to reset the map. Your destination is automatically saved in the Maps history.
6.5 Finding your friends with Google Latitude

Google Latitude user location service lets you and your friends share locations and status messages with each other. It also lets you send instant messages and emails, make phone calls, and get directions to your friends’ locations.

Your location is not shared automatically. You must join Latitude, and then invite your friends to view your location or accept their invitations.

Open Latitude

To join Latitude

1. While viewing a map in any mode (except in Street View), press MENU and then touch Join Latitude.

2. Read the privacy policy. If you agree with it, touch Agree & share.

To open Latitude after joining

While viewing a map in any mode (except in Street View), press MENU and then touch Latitude.

Share your locations

After you join Latitude, you can start sharing your locations with your friends. Only friends that you have explicitly invited or accepted can see your location.

Invite friends

To share your location with friends and request to see their locations

1. In Latitude, press MENU and then touch Add friends.

2. Choose how to add friends:
   - Select from Contacts. Select any number of friends from your Contacts. Friends who already use Latitude have a icon next to their names.
   - Add via email address. Enter an email address.

3. Touch Add friends.

4. Touch OK.
   - If your friends already use Latitude, they receive an email request and a notification on Latitude. If they have not yet joined Latitude, they receive an email request that tells them to sign in to Latitude with their Google Account.

Accept an invitation

When you get a sharing request from a friend, you can:

- Accept and share back. You can see your friend’s location, and your friend can see yours.
- Accept, but hide my location. You can see your friend's location, but they can’t see yours.
- Don’t accept. No location information is shared between you and your friend.

You can change how your location is shared with each friend at any time. Refer to “To share your location with friends and request to see their locations” on page 81 for more details.
Show your friends

You can show your friends using the map view or the list view.

Map view

When you open Google Maps, it shows your friends' locations. Each friend is represented by a photo icon with an arrow pointing at his or her approximate location. If a friend has opted to enable city-level sharing, his or her icon will not have an arrow and it appears in the middle of the city. Refer to “To share your location with friends and request to see their locations” on page 81 for more details.

If your friends use Google Talk, those friends' online status (available, busy, and so on) is indicated by a circular icon below those friends' pictures. For more information, see "Using Google Talk™" on page 62.

To see your friend's profile and connect with him or her, touch the photo. This will display your friend's name, then touch the balloon right above his or her icon.

To see other friends, touch either one of the arrow buttons next to the balloon.

List view

To show a list of your friends, in Maps, press MENU and then touch Latitude.

To see a friend’s profile and connect with him or her, select your friend’s name from the list.

Connect with your friends

Touch a friend’s contact details balloon in map view or touch a friend in list view to open the friend’s profile. In the profile screen, you can communicate with your friend and set privacy options.

| Show on map | Find a friend’s location on the map. |
| Chat using Google Talk | Send an instant message. Google Talk opens a chat window with that friend. |
| Send email | Send an email. Gmail opens an email addressed to that friend. |
| Directions | Get directions to the friend’s location. |
| Hide from this friend | Stop sharing your location with this friend. Your friend cannot see your photo icon on the map. To share your location with this friend again, touch Unhide from this friend. |
Control what you share

You have control over how and when you can be found by your friends. Only the last location sent to Latitude is stored with your Google Account. If you turn off Latitude or are hiding, no location is stored.

To change your public profile

1. In Maps, press MENU, touch Latitude, and then touch your contact details balloon.
2. Set the following options to your preferences.

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Share only city level location</td>
<td>Share only the city you are in, not the street-level location. Your friend can see your photo icon in the middle of the city you are in. To share more precise location again, touch Best available location.</td>
</tr>
<tr>
<td>Remove</td>
<td>Remove the friend from your list and stop sharing locations with him or her altogether.</td>
</tr>
<tr>
<td>Show on map</td>
<td>See your location on a map.</td>
</tr>
<tr>
<td>Change your status</td>
<td>Change the status message, which is shared across other Google products and features, such as Google Talk and Gmail. After you touch Change your status, type your new status in the dialog box, and then touch OK.</td>
</tr>
<tr>
<td>Change your photo</td>
<td>Change the picture, which is also shared across other Google products and features. After you touch Change your photo, you can either take a picture of yourself with the phone or select a picture from Gallery. Refer to “Using Camera and Camcorder” on page 84 and “Using Gallery” on page 86 for more details.</td>

7 Camera and Multimedia

7.1 Using Camera and Camcorder

Use Camera or Camcorder to take and share pictures and videos. Your phone comes with a 3.2 megapixel camera with auto-focus feature that lets you capture sharp pictures and videos.

Before you proceed

- You must install a storage card before you use the Camera or Camcorder. All pictures or videos that you capture on your phone are stored on the storage card. For more information on how to install a storage card on your phone, refer to “To install the storage card” on page 18.
- The camera lens at the back of the phone is covered by a protective film during shipment. Make sure that you peel this film off before using the camera.

To open the Camera or Camcorder

Press HOME, touch the Applications tab and then touch Camera if you want to capture photos or Camcorder if you want to shoot videos. The screen automatically switches to landscape orientation when you open Camera or Camcorder.

Tip You can easily switch to the other capture mode while you are in Camera or Camcorder. Refer to “Capture modes” in this chapter for details.

To close the Camera or Camcorder

On the Camera screen, press HOME or BACK.

Capture modes

The phone offers two capture modes: Camera and Video.

To change the capture mode

On the Camera screen, press MENU and then touch Switch to video or Switch to camera.

Take pictures

1. Press HOME, touch the Applications tab and then touch Camera or if you are in Camcorder, press MENU and then touch Switch to camera.
2. Frame your subject on the screen.
3 Touch onscreen to take the picture.

**Shoot videos**
1 Press HOME, touch the Applications tab and then touch Camcorder or if you are in Camera, press MENU and then touch Switch to video.
   Tip You can change the capture video quality by pressing MENU and then touching Settings > Select video quality.
2 Frame your subject on the screen.
3 Touch onscreen to start capturing video. Touch onscreen to stop capturing video.

**Important** You can capture a maximum of 10 minutes of video using the phone. When the last minute is reached, the duration display will change to red and start a countdown.

**Post capture**
After capturing, a thumbnail of the photo or video you have just captured appears at the upper-left corner of the screen. Touch the thumbnail to open the post capture icons. The post capture icons let you view the file in Gallery, set a photo as a contact icon or wallpaper, play back the video file, and share the file with friends.

**Copying photos and video to storage**

**To copy pictures and videos into the storage card**
1 Set the phone’s storage card as a USB drive. Refer to “Using the Phone’s Storage Card as a USB Drive” on page 33 for details.
2 On the computer, navigate to the USB drive and open it.
3 Create a folder on the root folder of the storage card.
   Tip You can also create and use folders to organize your pictures or videos into albums inside the folder you have created.
Copy the files into the folder you have created.
After copying the files, unmount or eject the drive as required by your computer's operating system to safely remove the phone.
Disconnect the phone from the computer.

7.2 Using Gallery

Gallery lets you view photos and play back videos. For photos, you can also do basic editing tasks, set them as your wallpaper or contact picture, and share to your friends.

To open Gallery
- Press HOME, touch the Applications tab and then touch Gallery.
- While on the Camera screen, press MENU and then touch Gallery.

If you stored your files in folders (directories) on the storage card, Gallery will display these folders as separate albums. The top left album contains all the pictures in the storage card.

![Gallery Interface]

This album contains all the pictures inside all the albums.
Scroll up the screen or roll the TRACKBALL down to view more albums.

This album contains all the videos inside all the albums.
Touch to view the files inside the album.
Album name and number of files inside.

Note Depending on the number of pictures stored on the storage card, it may take a while to load all your photos on the screen.

To close Gallery
While in the Gallery screen, press HOME or BACK to close the application.

Note If you opened Gallery from the Camera application, the screen returns to the Camera screen when you press BACK.

Work with pictures
Once you have taken a picture, you can view it or share it with friends.

To view pictures
1 On the Gallery screen, touch an album to view the pictures inside the album

Note If there are no picture albums, slide your finger upward or downward the screen, or roll the TRACKBALL up or down to browse through individual pictures.

2 Touch a thumbnail to view it in full screen. You can also touch and hold the thumbnail, then touch View on the options menu to open it.
Tip You can choose to display small or large thumbnails or sort your album and display the latest pictures first or last. On the Gallery screen, press MENU and then touch Settings. Navigate to the General settings section, touch Display size or Sort order, then adjust the settings accordingly.

To browse through pictures
When viewing pictures in full screen, do one of the following:

- Touch the left area of the screen to view the previous picture, or touch the right area of the screen to view the next picture.
- Touch the screen to display the scroll arrows. Touch the left arrow to view the previous picture, or touch the right arrow to view the next picture.
- Roll the TRACKBALL left to view the previous picture, or roll it right to view the next picture in the album or in the pictures list.

To zoom in or out on a picture
Touch the screen to activate the zoom control.

To view a picture in landscape orientation
Turn your phone sideways to view the picture in landscape mode. The picture orientation automatically adjusts to how you hold the phone.

Notes
- The Orientation check box in Home > MENU > Settings > Sound & display needs to be selected for the screen orientation to automatically change.
- If you want to rotate the picture and save the rotated state, see “To rotate and save the rotated state” below.

To rotate and save the rotated state
1 In the Gallery screen, touch and hold the picture you want to rotate or if you are viewing the picture in full screen, press MENU.
2 In the options menu, touch Rotate and then select either Rotate left or Rotate right.

Note The Picture rotates 90 degrees counter-clockwise (Rotate left) or 90 degrees clockwise (Rotate right) each time you touch one of the Rotate options.
To crop a picture

1. While viewing a picture in full screen, press **MENU** and then touch **Crop**. The cropper tool appears.
2. Do one of the following:
   - To adjust the cropper size, touch and hold the edge of the cropper tool. When the cropper arrows appear, drag your finger inward to or outward from the center of the cropper to resize it.
   - To keep the aspect ratio of the cropper while resizing, touch and hold one of the 4 corners.
   - To move the cropper to another area on the picture, touch and hold inside the cropper, then drag it with your finger to the desired position.
3. Touch **Save** to apply the changes to the picture.

**Note**  The cropped picture is saved in the storage card as a copy. The original picture remains unedited.

To send a picture using Email

1. While viewing a picture in full screen, press **MENU**, then touch **Share**.
2. When prompted, touch **Email** or **Gmail**.
3. The picture is automatically attached to your email. Compose your message, then touch **Send**. For more information on how to create and send emails, refer to “Using Gmail” on page 57.

To send a picture using Messaging

1. While viewing a picture in full screen, press **MENU**, then touch **Share**.
2. When prompted, touch **Messaging**.
3. The picture is automatically attached to your message. Compose your message, then touch **Send**. For more information on how to create and send messages, refer to “Sending Text and Multimedia Messages” on page 51.

To upload a picture to Picasa

You need to be signed in to a Google Account to be able to upload pictures to the Picasa™ photo organizing service.

1. While viewing a picture in full screen, press **MENU** and then touch **Share**.
2. When prompted, touch **Picasa**.
3. Enter a **Caption** for the picture and select the **Album** where you want to upload the picture.

   **Tip**  Touch  +  to create a new album where you can upload the picture.
4. Touch **Upload**. You can view the photos online at http://picasaweb.google.com.
Tip You can view the upload progress by opening the Notifications panel and then touching Picasa. Refer to “To open the Notifications panel” on page 27 to learn how to open the Notifications Panel.

Work with videos
Once you have taken a video, you can view it or share it with friends.

To watch videos
On the main Gallery screen, touch a video album and then touch the video you want to watch to start playing back the video.

Touch the screen to show the playback controls.

To send a video using Email
There is a 3MB limitation on the size of a video file that can be shared. If you want to share a video that you captured using the phone, this is approximately 1 minute of high quality or 2 minutes of low quality.

1. While viewing videos in a list, touch and hold the video, and then touch Share on the options menu.
2. When prompted, touch Email or Gmail.
3. The video is automatically attached to your email. Compose your message, then touch Send. For more information on how to create and send emails, refer to “Using Gmail” on page 57.

To send a video using Messaging
There is a 3MB limitation on the size of a video file that can be shared. If you want to share a video that you captured using the phone, this is approximately 1 minute of high quality or 2 minutes of low quality.

1. While viewing videos in a list, touch and hold the video, and then touch Share on the options menu.
2. When prompted, touch Messaging.
3. The picture is automatically attached to your message. Compose your message, then touch Send. For more information on how to create and send messages, refer to “Sending Text and Multimedia Messages” on page 51.

To share videos on YouTube
You can share your videos by uploading them to the YouTube™ user-generated content website. Before you do this, you must create a YouTube account and sign in to that account on your phone.

There is a 3MB limitation on the size of a video file that can be shared. If you want to share a video that you captured using the phone, this is approximately 1 minute of high quality or 2 minutes of low quality.

1. While viewing videos in a list, touch and hold the video, and then touch Share on the options menu.
2. When prompted, touch YouTube.
3. Enter a Title, Description, and Tags for your video. Select the Public check box if you want to share the video with everyone.
4. Touch Upload.
Tip You can view the upload progress by opening the Notifications panel and then touching YouTube. Refer to “To open the Notifications panel” on page 27 to learn how to open the Notifications Panel.

7.3 Viewing Videos on YouTube

YouTube™ is a free online video streaming service that allows you to view, search, and upload videos. 

Note You must have an active data (3G/GPRS/EDGE) or Wi-Fi connection to access YouTube.

To open YouTube
Press HOME, touch the Applications tab and then touch YouTube.

The YouTube screen appears with the videos grouped into categories, such as Featured, Most popular, Most viewed, Top rated, and more.

To close YouTube
While on the YouTube screen, press HOME or BACK to close YouTube.

Watch YouTube videos
1 On the YouTube screen, select a video to watch from the available categories. Touch a category to see the available videos for that category.
2 Touch a video to play it.
   Note The screen automatically switches to landscape orientation when you play a video.
3 Touch the screen to display the playback controls.

4. Press BACK to stop playback and return to the videos list.

Search for videos
1 On the YouTube screen, press MENU and then touch Search.
2 Enter a search keyword, then touch .
3 The number of search results appears below the status bar. Scroll through the results and touch a video to watch it.
To clear the search history
1 Press MENU and then touch Settings.
2 Touch Clear search history and then touch OK when prompted.

7.4 Using Music

Music plays digital audio files from the phone’s storage card. Music supports the following music file formats: MP3, M4A (iTunes application AAC, DRM-free), AMR, WMA (8), MIDI, WAV, OGG Vorbis. Since Music only plays audio files saved on the storage card of your phone, you must copy your audio files to the storage card before you open Music.

To copy music into the storage card
1 Set the phone’s storage card as a USB drive. Refer to “Using the Phone’s Storage Card as a USB Drive” on page 33 for details.
2 On the computer, navigate to the USB drive and open it.
3 Create a folder on the root folder of the storage card (for example, Music).  
   Tip You can also create and use folders to organize your music inside the Music folder you have created.
4 Copy the music into the folder you have created.
5 After copying music, unmount or eject the drive as required by your computer’s operating system to safely remove the phone.
6 Disconnect the phone from the computer.

To open Music
Press HOME, touch the Applications tab, and then touch Music. The Music library screen displays.

Music library

Your music is organized into four categories: Artists, Albums, Songs, and Playlists. Touch a category to view the list within each. When inside a category, keep touching the screen until you reach the music you want to play. For example, if you touch Artists, you will see a list of artists in alphabetical order. If you touch an artist, the list opens to display the available albums or music. Select an album and the album’s song list displays.

Music bar
Appears when a music file is currently playing. Touch to open the playback screen.
Play music
Touch a song to play it back.

Notes
• Press the VOLUME UP or VOLUME DOWN button to adjust the playback volume.
• If you are using the provided wired headset to listen to music, press the button to toggle between playing and pausing playback. Press and hold the button to go to the next track on the playlist.

Tip While on the Music library or playback screen, you can play all songs in your library in random order. Press MENU, then touch Party shuffle. The first randomly selected song will play. To turn off Party shuffle, press MENU, then touch Party shuffle off.

Use playlists
Use playlists to organize your music files. You can create as many playlists as you want on your phone.

To create a playlist
1 Touch a category on the Music library screen.
2 In the list that appears, use the TRACKBALL to navigate to the artist, album, or song that you want to add in the playlist.
3 Touch and hold the artist, album, or song, then touch Add to playlist on the options menu.
4 In the Add to playlist window, touch New.
   Tip If you want to add the artist, album, or song to an existing playlist, touch the playlist’s name in the Add to playlist options menu.
5 Enter the name for your new playlist and then touch Save.

To manage your playlists
1 Go to the Music library screen and then touch Playlists.
2 Do one of the following:
   • To play the songs in a playlist, touch the playlist name.
   • To delete a playlist, touch and hold the playlist, then touch Delete.
• To rearrange the songs or remove a song in a playlist, touch and hold the playlist, then touch **Edit** on the options menu. Touch and hold 📀 before the song you want to move, drag it to its new position, then release.
• To delete a song in a playlist, touch and hold the song, then touch **Remove from playlist**.
• To rename a playlist, touch and hold the playlist, then touch **Rename** on the options menu. Enter the new playlist name, then touch **Save**.

**Note** The **Recently added** playlist is a system playlist and cannot be deleted or renamed.

**To import a playlist**
You can create playlists on your computer, then save these on your storage card. Music can access the following playlist formats: M3U, WPL, and PLS.

1. On your computer, open a text file for editing.
2. On separate lines, enter all the music file names you want to include in your playlist.

**Notes**
• The names you list in the file should be the names that appear when you view the contents of your storage card through your computer's file system, not the names that appear in the list of songs on your phone.
• Your phone will simplify the names and will not include track numbers or file extensions (for example, .mp3).
3. Save the playlist file using .m3u as the file name extension (for example, MyMusic.m3u).
4. Copy the playlist file to the Music folder on the storage card. Follow the instructions in "To copy music into the storage card" section earlier in this chapter.

**Tip** It is recommended that you create a **Playlist** folder inside your **Music** folder in the storage card to hold all your playlist files.

**Set a song as ring tone**
You can use songs as your phone ring tone.

1. From the Music library, navigate to the song that you want to use as ring tone.
2. Touch and hold the song, then touch **Use as phone ringtone** on the menu. The song is set as your default incoming call ring tone.

**To check if the song was added as a ring tone**

1. Press **HOME**, press **MENU**, and then touch **Settings**.
2. On the Settings screen, touch **Sound & display > Phone ringtone**. The song should be listed as an option.

**Delete music on the storage card**
You can delete music files on the storage card.

1. On the Music Library screen, touch **Artists, Album, or Songs**.
2. Touch and hold the artist, album, or song you want to delete, then touch **Delete** on the options menu.
3. When prompted, touch **OK**.
8 Using Android Market

8.1 Using Android Market

Android Market provides direct access to useful applications and fun games which you can download and install on your phone. Android Market also allows you to send feedback and comments about an application, or flag an application that you find objectionable or incompatible with your phone.

To open Android Market

1. Press HOME, then touch the Applications tab, and then touch Market.

2. When you open Android Market for the first time, the Terms of Service window will appear. Touch Accept to continue.
8.2 Getting help

If you ever need help or have questions about Android Market, press MENU and touch Help. The Browser will take you to the Android Market Help webpage.

8.3 Finding applications

The Android Market home page provides several ways to find applications. It showcases featured applications and includes a list of item applications by category, a list of games, a link to search, and a link to My downloads.

Scroll horizontally through the featured items or select a category to browse its contents, then select a subcategory. Within each subcategory you can select to view items sorted By popularity or By date.

Touch the tab to sort by popularity or date.

Note All items in a subcategory are listed in each tab; those in the By popularity tab are sorted from most popular to least popular, and those in the By date tab are sorted from newest to oldest.
8.4 Installing an application

To install and open an application

1. Navigate to the item you want to download, and select it.
2. In the item details screen, read more about the application, including its cost, overall rating, and comments by users. If you scroll down to the About the developer section, you can view more applications by this developer, visit the developer’s website, and send the developer an email message.
   **Important** Press MENU and select Security permissions to view the functions and data this item can access on your phone.

3. To install the item, select either Install (if item is free) or Buy, whichever appears. For instructions on how to purchase an application, refer to “Purchasing an application” on page 97.
   **Important** If the application requires either access to any of your data or control of any functions on your phone, Market tells you what the application can access.
   **Read it carefully!** Be especially cautious with applications that have access to many functions or a significant amount of your data. Once you select OK on this screen, you are responsible for the results of using this item on your phone. Touch OK if you agree to the conditions of the application.

4. To check the progress of the download, open the notifications window. Most applications are installed within seconds. If you want to stop downloading the item, touch Cancel download.

5. After the item is downloaded and installed on your phone, the content download icon appears in the notification area of the status bar.

7. Touch the installed application in the list, then touch Open.

**Tip** You can also find the icon of the installed application on the Applications tab.
8.5  Purchasing an application

If an application has a price associated with it, you have to buy it before you can download it. You can try it out for 24 hours. Your credit card will be charged unless you ask for a refund within 24 hours of purchase.

You pay for an application only once. You can uninstall it and download it again later without having to pay for it again. In addition, if you have multiple Android phones that use the same Google Account, you can download the purchased application to all of them at no additional cost.

1. Touch the application you want to buy.
2. At the bottom of the screen, touch **Buy**.
3. If you are making a purchase for the first time, log in to Google Checkout™ payment and billing service.
   - If you do not have a Google Checkout account, fill out the form. Google Checkout is a fast, secure, and convenient way to purchase items from your phone. To learn more about Google Checkout, see https://checkout.google.com.
   - **Important!** Your phone remembers your Google Checkout password, so set up a screen lock to secure your phone. Refer to “Protect your phone with a screen lock” on page 101 for more details.
4. If your Google Checkout account has multiple credit card accounts, select the account that you want to use.
5. Select the **Terms of Service** link and read the document. When you are done, press **BACK**.
6. If you agree with the terms of service for Google Checkout, select the check box.
7. Touch **Buy now** at the bottom of the screen.
   - Android downloads the application and takes you back to the Android Market Home. When the download and installation are complete, your status bar displays 📱.

Request a refund

If you are not satisfied with the application, you can ask for a refund within 24 hours of the purchase. Your credit card will not be charged and Android will remove the application. If you change your mind, you can install the application again, but you will not be able to request a refund.

To get a refund and remove an application

1. In Android Market Home, touch **My downloads**.
2. Touch the application that you want to uninstall.
3. In the **Uninstall & refund** dialog box, touch **OK**. If the dialog box does not appear, your trial period has expired.
4. In the survey form, select the answer that best matches your reason, and touch **OK**.
8.6 Managing your applications

From the Android Market Home, touch My downloads to view your downloaded items. From any of the Android Market screens, press MENU and touch My downloads to go to the screen.

8.7 Uninstalling an application

To uninstall an application

You can uninstall any application that you have downloaded and installed from Android Market.

1. On the My downloads screen, touch the application you want to uninstall, then touch Uninstall.
2. When prompted, touch OK to remove the application on your phone.
3. Choose the reason for removing the application, then touch OK.
9 Managing Your Phone

9.1 Changing Basic Settings

Set the date, time zone, and time
By default, your phone automatically uses the network-provided date, time zone, and time.

To manually adjust the date, time zone, and time
1. Press HOME, then press MENU, and then touch Settings.
2. Scroll down the screen, then touch Date & time.
3. Clear the Automatic check box.
4. Touch Set date. On the Change date window, touch + or − to adjust the date, month, and year, then touch Set when finished.
5. Touch Set time zone, then select the time zone in the list. Scroll down the list to view more time zones.
6. Touch Set time. On the time window, touch + or − to adjust the hour and minute, then touch AM to change to PM or vice versa. Touch Set when finished.
7. Select the Use 24-hour format check box to toggle between using a 12-hour or a 24-hour format.
8. Touch Select date format then select how you want dates to display on your phone. The selected date format also applies to the date displayed in the Alarm Clock.

Note For details on how to set an alarm, refer to “Using Alarm Clock” on page 49.

Display settings

To adjust the screen brightness
1. Press HOME, then press MENU, and then touch Settings.
2. Touch Sound & display, scroll down the screen, then touch Brightness.
3. Drag the brightness slider to the left to decrease or to the right to increase the screen brightness.
4. Touch OK.

To adjust the time before the screen turns off
After a period of inactivity, the phone screen turns off to conserve battery power. You can set the idle time before the screen turns off.
1. Press HOME, then press MENU, and then touch Settings.
2. Touch Sound & display.
3. Scroll down the screen, then touch Screen timeout.
4. Touch the time before the screen turns off.

Tip To turn off the screen quickly, press the END CALL/POWER button.

To prevent the screen orientation from automatically changing
By default, the screen orientation automatically adjusts depending on how you hold the phone.
1. Press HOME, then press MENU, and then touch Settings.
2 Touch Sound & display.
3 Scroll down the screen, then clear the Orientation check box.

To keep the screen on while charging the phone
You can keep the phone from turning off the screen while you are charging the phone.
1 Press HOME, then press MENU, and then touch Settings.
2 Touch Applications > Development and then select the Stay awake check box.

Ringer settings
To change the ring tone
1 Press HOME, then press MENU, and then touch Settings.
2 Touch Sound & display > Phone ringtone.
3 Touch the ring tone you want to use, then touch OK. The ring tone briefly plays when selected.
Tip You can use *.wav, *.mid, *.mp3, *.wma, or other types of sound files that you downloaded from the Internet or copied from your computer as ring tones. For a complete list of supported audio file formats for ring tones, refer to “Specifications” in the Appendix.

To enable touch tones
You can set the phone to play a sound when you are using Dialer phone pad and/or touching the screen.
1 Press HOME, then press MENU, and then touch Settings.
2 Touch Sound & display, then scroll down the screen.
3 Select the Audible touch tones and/or Audible selection options.

To choose the notification ring tone
You can select the ring tone to play when your phone receives new notifications.
1 Press HOME, then press MENU, and then touch Settings.
2 Touch Sound & display > Notification ringtone.
3 Select your preferred notification ring tone in the list and then touch OK.

Phone services
Your phone can directly link to the mobile phone network, and enable you to access and change the settings of various phone services for your phone. Phone services may include Call Forwarding, Call Waiting, Voicemail, and more. Contact your wireless service provider to find out about the availability of phone services for your phone.

To access and change the phone services settings
1 Press HOME, then press MENU, and then touch Settings.
2 Touch Call settings.

Note For more information about the phone services on your phone, refer to “Adjusting Phone Settings” on page 40.

To enable data roaming
Data roaming lets you connect to your wireless service provider’s partner networks and access data services when you are out of your wireless service provider coverage area.
1 Press HOME, then press MENU, and then touch Settings.
2 Touch Wireless controls > Mobile networks.
3 Select the Data roaming option.
Important Accessing data services while roaming may incur significant charges. Inquire the data roaming tariffs with your wireless service provider before enabling data roaming.

Language settings
You can change the operating system language of the phone.

To change the language of the operating system
1. Press HOME, then press MENU, and then touch Settings.
2. Touch Locale & text > Select locale and then select the language you want to use.

9.2 Protecting Your Phone

Protect your SIM card with a PIN
You can protect your SIM card from unauthorized use by assigning a PIN (personal identification number).

To enable the SIM card PIN
1. Press HOME, then press MENU, and then touch Settings.
2. Touch Security & location, scroll down the screen, then touch Set up SIM card lock.
3. Select the Lock SIM card option.
4. Enter the default SIM card PIN using the keyboard, then touch OK.
5. To change the SIM card PIN at any time, touch Change PIN code.

Tip Emergency calls can be placed at any time, without requiring a PIN.

To restore a SIM card that has been locked out
If you enter the wrong PIN more times than the maximum number of attempts allowed, your SIM card will become "PUK-locked." You need a new PUK code to restore access to the device. This code may have been provided by your operator when you received your SIM card.

Touch Emergency Dial and enter the following sequence on the keypad:
* * 0 5 * [PUK code] * [new PIN] * [new PIN] #

For example, if your PUK code is 888888 and you would like to reset the PIN on your SIM card to 7777, enter the following into Emergency Dial: **05*888888*7777*7777#

Protect your phone with a screen lock
You can further secure your data by locking the screen and/or requiring a screen unlock pattern every time your phone is turned on or every time it wakes up from sleep mode (screen is off).

To lock the screen
Press the END CALL/POWER button. Locking the screen prevents accidental screen touches when the phone is in your bag, purse, or pocket.

Note To unlock the screen, press one of the buttons in front of the phone, and then press MENU and enter your screen unlock pattern.
To create and enable the screen unlock pattern

You can increase the security of your phone by creating a screen unlock pattern. When enabled, you have to draw the correct unlock pattern on the screen to unlock the phone’s control buttons and touch screen.

1. Press HOME, then press MENU, and then touch Settings.
2. Touch Security & location > Set unlock pattern.
3. Read the information on the screen, then touch Next.
4. Study the example pattern on the screen, then touch Next.
5. Draw the screen unlock pattern by connecting at least four dots in a vertical, horizontal and/or diagonal direction. Lift your finger from the screen when finished.
   - **Note** You must slide your finger on the screen to create the pattern and not touch individual dots.
6. The phone records the pattern. Touch Continue.
7. When prompted, draw the screen unlock pattern again, then touch Confirm.
   - **Tip** Clear the Use visible pattern check box if you do not want the unlock pattern to display on the screen when you unlock it.
   - **Note** To change your unlock screen pattern, press HOME, then press MENU, and then touch Security & location > Change unlock pattern.

When you fail to draw the correct unlock pattern on the screen after five attempts, you will be prompted to wait for 30 seconds before you can try again. If you forgot your screen unlock pattern, touch Forgot pattern. You will be prompted to sign in using your Google Account name and password, and create a new screen unlock pattern before the Home screen displays.

### 9.3 Managing Memory

To see how much phone memory is available for use

1. Press HOME, then press MENU, and then touch Settings.
2. Scroll down the screen, then touch SD card & phone storage. The available phone memory is displayed in the Internal phone storage section.

To see the available storage card space

1. Press HOME, then press MENU, and then touch Settings.
2. Scroll down the screen, then touch SD card & phone storage. The total and available storage card space display in the SD card section.

To clear application cache and data

1. Press HOME, then press MENU, and then touch Settings > Applications > Manage applications.
2. In the Manage applications list, touch the application whose cache and/or data you want to delete.
   - **Tip** Press MENU to bring up sort and filter options.
3. In the Application info screen, touch Clear data and/or Clear cache.
To uninstall applications not from Android Market
You cannot uninstall applications that are preinstalled on the phone.
1. Press HOME, then press MENU, and then touch Settings > Applications > Manage applications.
2. On the Manage applications screen, touch the application you want to uninstall.
3. On the Application info screen, touch Uninstall.

To free up more phone memory or storage card space
If your phone is running low on memory, you can try the following:
- In Browser, clear all temporary Internet files and Browser history information. Refer to “Using Browser” on page 68 for more details.
- Uninstall programs you downloaded from Android Market that you no longer use. Refer to “To uninstall an application” on page 98 for more details.

9.4 T-Mobile My Account
T-Mobile My Account lets you quickly view a summary of your account, get help for your phone, and show storage and battery levels.

To open My Account
Press HOME, touch the Applications tab, and then touch My Account.

My Account tabs
There are three tabs in My Account: Acct Info, Help, and Phone. Touch the tab to view the available options.

<table>
<thead>
<tr>
<th>Tab</th>
<th>You can</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acct Info</td>
<td>• Check a summary your phone usage and bill.</td>
</tr>
<tr>
<td></td>
<td>• Pay your bill online.</td>
</tr>
<tr>
<td></td>
<td>• View information about your plan and services.</td>
</tr>
<tr>
<td>Help</td>
<td>• Check “How to’s” for the phone.</td>
</tr>
<tr>
<td></td>
<td>• View Tips and Tricks.</td>
</tr>
<tr>

</tr>
<tr>
<td>Phone</td>
<td>• Check storage levels for the phone and microSD card.</td>
</tr>
<tr>
<td></td>
<td>• Check battery power.</td>
</tr>
</tbody>
</table>
9.5 Software Updates

Google might send new or updated versions of your phone’s operating system via over-the-air (OTA) updates. When your phone receives an OTA update, it will automatically connect to the Internet using your data connection (3G, GPRS, EDGE, or Wi-Fi) and will download the software update.

**Note** If you are roaming or if you clear the **Background data** check box (described in the next section), you will not receive updates.

9.6 Synchronizing Google Applications

Google Applications on your phone, such as Gmail, Calendar, and Contacts, give you access to the same personal information (emails, events, and contacts) that you add, view, and edit on your computer using Gmail or Calendar. Synchronize the Google application information you want to keep up-to-date.

**To select which application to synchronize**

1. Press **HOME**, then press **MENU**, and then touch **Settings > Data synchronization**.
2. Select the **Background data** and **Auto-sync** check boxes and then select the Google Applications check boxes you want to be automatically synchronized.

**Tip** Clear the **Background data** check box to help save battery power and to lower data connection usage.

**Note** If the **Auto-sync** check box is not selected, you need to touch the Google application in the list to synchronize it.

To stop synchronization

During synchronization, press **MENU**, then touch **Cancel sync** to stop synchronization.
9.7 Resetting the Phone

Resetting the phone deletes all data, including downloaded applications, and resets the phone back to its initial state—the state before you turned on the phone for the first time.

Important Make sure to back up important data you have on the phone before you perform a factory data reset.

Note For Android Market applications that you purchased, you can download and install them again on the phone. Refer to “Purchasing an application” on page 97 for more details.

To reset the phone

1. Press HOME, then press MENU, and then touch Settings.
2. Scroll down the screen, then touch SD card & phone storage.
3. Navigate to the Internal phone storage section, then touch Factory data reset.
4. On the Factory data reset screen, touch Reset phone. If prompted, enter your screen unlock pattern, then touch Erase everything.

Tip If your phone hangs or freezes, remove the battery, then wait for a few seconds, and then re-install it. After re-installing the battery, turn on the phone.

10.2 A.2 Regulatory Notices

Regulatory Agency Identifications
For regulatory identification purposes, this product is assigned a model number of SAPP300.

To ensure continued reliable and safe operation of this product, use only the accessories listed below with your SAPP300.

The Battery Pack has been assigned a model number of SAPP160.

Note This product is intended for use with a certified Class 2 Limited Power Source, rated 5 Volts DC, maximum 1 Amp power supply unit.

Federal Communications Commission Notice
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or TV reception, which can be determined by turning the equipment on and off, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio or television technician for help.

Modifications
The FCC requires the user to be notified that any changes or modifications made to the device that are not expressly approved by High Tech Computer Corporation may void the user’s authority to operate the equipment.

Body-worn operation
This device was tested for typical body-worn operations with the back of the phone kept 1.5 cm from the body. To maintain compliance with FCC RF exposure requirements, use only belt-clips, holsters or similar accessories that maintain a 1.5 cm separation distance between the user’s body and the back of the phone, including the antenna. The use of belt-clips, holsters and similar accessories should not
contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

**Safety Precautions for Radio Frequency Exposure**

- Use only original manufacturer-approved accessories, or accessories that do not contain any metal.
- Use of non-original manufacturer-approved accessories may violate your local Radio Frequency exposure guidelines and should be avoided.

**FCC RF Radiation Exposure Statement**

- This Transmitter has been demonstrated co-location compliance requirements with Bluetooth and WLAN. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
- This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

**Exposure to Radio Frequency (RF) Signals**

Your phone contains a radio transmitter and receiver. The radiated output power is far below the international radio frequency exposure limits. These limits are part of comprehensive guidelines and establish permitted levels of Radio Frequency energy for the general population. The guidelines are based on the safety standards previously set by international standards bodies:

- American National Standards Institute (ANSI) IEEE. C95.1-1992
- International Commission on Non-Ionizing Radiation Protection (ICNIRP) 1996
- Ministry of Health (Canada), Safety Code 6. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in usage.

As with other mobile radio transmitting equipment, users are advised that for satisfactory operation of the equipment and for the safety of personnel, it is recommended that no part of the human body be allowed to come too close to the antenna during operation of the equipment.

Your phone has an internal antenna. Use only the supplied integral antenna. Use of unauthorized or modified antennas may impair call quality and damage your phone, causing loss of performance and SAR levels exceeding the recommended limits as well as result in non-compliance with local regulatory requirements in your country.

To assure optimal phone performance and ensure human exposure to Radio Frequency energy is within the guidelines set forth in the relevant standards; always use your phone only in its normal-use position. Do not touch or hold the antenna area unnecessarily when placing or receiving a phone call. Contact with the antenna area may impair call quality and cause your phone to operate at a higher power level than needed. Avoiding contact with the antenna area when your phone is IN USE optimizes the antenna performance and the battery life.

Tests for SAR are conducted using standard operating positions specified by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operation can be well below the maximum value. This is because the phone is designed to operate at multiple power
levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output. Before a phone model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (for example, at the ear and worn on the body) as required by the FCC for each model. (Bodyworn measurements may differ among phone models, depending upon available accessories and FCC requirements). For body worn operation, to maintain compliance with FCC RF exposure guidelines, use only original manufacturer approved accessories.

**SAR Information**

1.55 W/kg@1g(Head)
1.43 W/kg@1g(Body)

**Telecommunications & Internet Association (TIA) Safety Information**

**Pacemakers**

The Health Industry Manufacturers Association recommends that a minimum separation of six inches be maintained between a handheld wireless phone and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by and recommendations of Wireless Technology Research. Persons with pacemakers:

- Should ALWAYS keep your phone more than six inches from their pacemaker when your phone is turned on.
- Should not carry your phone in a breast pocket.
- Should use the ear opposite the pacemaker to minimize the potential for interference. If you have any reason to suspect that interference is taking place, turn your phone off immediately.

**Hearing Aids**

Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your wireless service provider, or call the customer service line to discuss alternatives.

**Other Medical Devices**

If you use any other personal medical device, consult the manufacturer of your phone to determine if they are adequately shielded from external Radio Frequency energy. Your physician may be able to assist you in obtaining this information.

Turn the phone off in health care facilities when any regulations posted in these areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external Radio Frequency energy.

**WEEE Notice**

The Directive on Waste Electrical and Electronic Equipment (WEEE), which entered into force as European law on 13th February 2003, resulted in a major change in the treatment of electrical equipment at end-of-life.

The purpose of this Directive is, as a first priority, the prevention of WEEE, and in addition, to promote the reuse, recycling and other forms of recovery of such wastes so as to reduce disposal.
The WEEE logo (shown at the left) on the product or on its box indicates that this product must not be disposed of or dumped with your other household waste. You are liable to dispose of all your electronic or electrical waste equipment by relocating over to the specified collection point for recycling of such hazardous waste. Isolated collection and proper recovery of your electronic and electrical waste equipment at the time of disposal will allow us to help conserving natural resources. Moreover, proper recycling of the electronic and electrical waste equipment will ensure safety of human health and environment. For more information about electronic and electrical waste equipment disposal, recovery, and collection points, please contact your local city center, household waste disposal service, shop from where you purchased the equipment, or manufacturer of the equipment.
